

# **Purpose of Report**

1.1 The purpose of this business paper is to inform Council of drainage issues occurring at the Te Kuiti Squash Rackets Club Incorporated (TKSRC) site and present a request from TKSRC for assistance to address the drainage issue.

#### Background

- 2.1 The TKSRC building and courts were built approximately 40 years ago.
- 2.2 The building is owned by the TKSRC and situated on WDC land. The car park is accessed from Ngarongo Street and forms part of Centennial Park.
- 2.3 The car park is used predominately by the TKSRC however it is also heavily used in the winter months by Junior Soccer.
- 2.4 WDC have assisted with the maintenance of the car park over the years by way of supplying metal to fill potholes at the site.
- 2.5 In March 2016 WDC prepared documentation on behalf of TKSRC to obtain quotes from contractors to undertake drainage work comprising:
  - Supply and lay PCV pipe connecting 6 existing down pipes to road storm water manhole.
  - Install leaf slider from top of each down pipe.
  - Install Novaflow to connect with manhole.
- 2.6 On 7 April 2016 TKSRC were advised two quotations had been received.

#### Commentary

- 3.1 A search of WDC records has been unable to identify any record of the ground lease and as a result it has not been possible to test what conditions of lease were agreed between the parties at the time.
- 3.1 Attached to and forming part of this business paper is a copy of a letter received from TKSRC on 20 April 2016 requesting assistance from WDC to address drainage issues experienced at the site.

- 3.2 The letter draws attention to the public use of the car park and the detrimental effects experienced during the winter months. It should be noted that public use is of very limited duration and for the most part limited to Saturday morning sport.
- 3.3 The letter also outlines the potential damage to the TKSRC building due to water ponding under the building causing rot within some of the floor boards.
- 3.4 The main cause of the problem is there is no stormwater system in place to take runoff from the existing down-pipes of the building. Also, the addition of metal to the car park over the years has raised the level of the area and the camber causes the stormwater discharged from the TKSRC to flow in part back towards and under the building.
- 3.5 As previously outlined two quotations for the installation of a stormwater system were received from local contractors. The indicative cost is in the range of \$5,100 to \$7,700 (excl GST).
- 3.6 Should Council agree to the request made by TKSRC to address the disposal of the stormwater discharged from the TKSRC building down pipes, due contribution could be funded from Other Land and Buildings function.

#### Suggested Resolution

- 1. The letter from Te Kuiti Squash Rackets Club Incorporated be received.
- 2. The business paper Te Kuiti Squash Rackets Club Incorporated Drainage Issues be received.
- 3. Council agree / not agree to assist the TKSRC with funding the cost of piping the building stormwater to the WDC stormwater disposal system.

Attachment 1. Letter from Te Kuiti Squash Rackets Club (doc 395500)

Te Kuiti Squash Rackets Club Incorporated PO Box 74 Te Kuiti

20 April 2016

The Chief Executive Waitomo District Council PO Box 404 <u>Te Kuiti</u>

Dear Chris

We write in reply to a letter received from John DeLuca, dated 7 April 2016, regarding the drainage problem in the carpark at the Te Kuiti Squash Club, on Ngarongo Street.

3

We have been loyal tenants on Council land for 40 years and appreciate the use and benefits of being able to utilise this space. The many members of the club over the years are greatly appreciative of this use and the support of WDC over this time.

We have however now identified a problem where the drainage is not being able to get away to an adequate discharge point. This has had the detrimental effect of water ponding under the building, causing rot within some of the floor bearers.

Back 40 years ago when the courts were built by Jack Russell Construction, and many, many volunteer hours by members, there obviously wasn't any requirement for spouting run off to be piped. If it was a requirement, it may have been waived by the then Chief Engineer, Dave Muir, who also designed the building and was on the steering committee.

We believe a major part of the problem has been caused by years of metal build up being placed in the carpark to fix pot holes, as well as the fact that for years the park has had drainage problems as well, until being recently rectified.

The metal that has been placed in the carpark was undertaken by WDC, which we do greatly appreciate, but now it seems to be the main contributor to the drainage problem. During the winter months, the carpark is heavily used by Junior Soccer on a Saturday morning, by parents, coaches and officials. At times, members are not able to park in there until well after midday.

The cost of repairing the floor within the damaged bearers is going to be significant. The club has engaged a contractor to investigate, but they don't know what they are going to find until they get underneath and start removing parts of the floor. Unfortunately, we don't have a firm price on this yet.

# /2

We are hopeful that WDC would see fit to do the required drainage maintenance of this land at their cost, for the benefit and utilisation of all the members of the public who use it.

We thank you for your support of this matter, and look forward to your consideration and favourable response.

Yours sincerely

Andany

Davina Davey President

# Document No: 394599 File No: 097/001E Report To: Council Meeting Date: 31 May 2016 Waitono Subject: Progress Report: Resource Consent Applications Progress Report: Resource Consent

# **Purpose of Report**

1.1 The purpose of this business paper is to provide Council with a progress report on outstanding resource consent applications and those applications currently being processed.

#### Local Government Act S.11A Considerations

2.1 There are no Section 11A of the Local Government Act considerations relating to this business paper.

#### **Risk Considerations**

- 3.1 Risks assessed and their mitigation in regards to matters contained in this business paper are as follows:
  - 3.1.1 Legislative the District Plan and Resource Management Act has very clear requirements and timelines.
  - 3.1.2 Monitoring and enforcement there is a risk that monitoring and enforcement could result in unintended consequences.

#### Background

- 4.1 Most resource consent applications are dealt with by staff under delegated authority. In such circumstances it is important that both the Chief Executive and Council are briefed on progress with such applications.
- 4.2 So as to ensure that Council is adequately briefed on all resource consent applications, a schedule is attached to and forms part of this business paper detailing progress of consent applications. This schedule also includes all completed consents processed in the current financial year.
- 4.3 Some resource consent applications are inevitably appealed to the Environment Court. Such a process is both expensive and time consuming and there is a need to ensure that Council is well briefed on applications being processed in this manner.
- 4.4 It is intended on a monthly basis to prepare a progress report for Council on all outstanding resource consents and those resource management issues impacting on this Council which are being dealt with by the Environment Court.

#### Commentary

#### 5.1 Mokau Sands Appeal Process Update

5.2 In May 2012 WDC received a resource consent application from Mokau Sands Limited seeking approval to redevelop the Seaview Motor Camp at Mokau and undertake a consequential subdivision.

6

- 5.3 The applicant was proposing to redevelop the site to provide 31 holiday apartments and a 50 seat café/restaurant.
- 5.4 The application was publicly notified in August by both the Waikato Regional Council and WDC with submissions closing 4 September 2012.
- 5.5 A total of 39 submissions were received, some supporting the proposal while others opposed the development.
- 5.6 The applicant subsequently asked for the application to be placed on hold so as to allow ongoing discussions with the Department of Conservation and the NZ Transport Agency. Both organisations lodged submissions on the application and the applicant believed that it would be prudent if possible to resolve matters between the parties prior to a hearing.
- 5.7 The proposal was revised, with the key change being a reduction in the number of units to 24 and the retention of a number of the camping ground cabins as traveler's accommodation linking with the café. Other revisions were a commitment that the units would be relocatable, in the event of further coastal erosion, and that they will be designed to blend into the coastal environment rather than intrude upon it.
- 5.8 All submitters were updated in terms of the delays encountered with the application.
- 5.9 The revised application was again placed on hold pending the outcome of another resource consent lodged by the applicant for the site. The site was subject to severe coastal erosion and the applicant sought consent to rebuild and plant the fore dune. This consent was subsequently approved.
- 5.10 The joint hearing was held on Wednesday 20 to Thursday 21 May 2015 with the Mayor as Chair and Councilor Brodie as a committee member. A site visit formed part of the hearing process.
- 5.11 The key issues for which evidence was presented concerned the traffic effects of the proposal on SH3, landscape and visual impacts, the trigger point when units and infrastructure would need to be relocated, cultural concerns, the vesting of a new road to provide access to the coast and the loss of a camping ground to private development.
- 5.12 The Hearings Committee adjourned the hearing for the applicant and Council staff to prepare a revised set of recommended conditions that was generally agreed to by the parties at the hearing. The revised conditions presented to the Hearings Committee were largely agreed. The one exception was in regard to the vesting of the new road to provide access to the coast. The applicant wanted the road to vest only at the time a café was constructed, whilst the Council staff wanted the road to vest immediately, although not be formed until the café was constructed.
- 5.13 The final Right of Reply from the applicant was received on 21 July 2015. The Committee subsequently formally closed the hearing and made a decision on the proposal on 13 August 2015.

5.14 The decision was to grant consent to the application. The Hearings Committee largely adopted the revised set of recommended conditions.

The conditions cover building location, size and design, coastal erosion and managed retreat, tangata whenua/archaeology, earthworks, services and utilities, landscape and mitigation planting, urban design, and roading and carparking. On the one issue in contention, the vesting of the road, the decision has required that the road be vested immediately thus ensuring access to the coast for the public.

- 5.15 Whilst the road is required to be vested, it does not have to be formed. For all intents and purposes it will remain as it currently is, but in Council ownership. Council could decide to form it as a rest area and carpark at a future date, otherwise the applicant is required to form it as road and carpark when and if a café is constructed.
- 5.16 One of the main reasons why the applicant did not wish to vest the road immediately is because he considers there is a public benefit that accrues from the rest area and carpark that Council should contribute towards. Council was approached by the applicant to contribute towards the formation of the road and carpark.
- 5.17 As expected the decision of the Hearings Committee was appealed by the applicant, Mokau Sands Limited. The appeal was lodged with the Environment Court on 9 September 2015.
- 5.18 New Zealand Transport Agency joined the Appeal on 5 October 2015 as an interested party.
- 5.19 WDC's lawyers, Le Pine & Co, were engaged to respond to the appeal. The Environment Court generally expected parties, particularly local authorities, to take part in alternative dispute resolution (such as mediation) in advance of a hearing, if not to resolve the appeal, then as a means to narrow and settle issues. All parties at mediation were to be represented throughout by a person or persons holding full delegated authority to settle the dispute. Direct negotiation was also to be considered by the parties at all times.
- 5.20 At its meeting on 28 October 2015 Council considered a Memorandum which outlined the list of issues unresolved between the parties as well as a report prepared and presented at the meeting by Nigel McAdie from LePine & Co.
- 5.21 Council subsequently delegated authority to the Chief Executive to settle the appeal by Mokau Sands Limited, by way of negotiation and / or Court assisted mediation with assistance from Council's legal and planning advisers on the basis any settlement:
  - Is consistent with the District Plan policy;
  - Conforms to the relevant requirements and objectives of the RMA including in particular the maintenance and enhancement of public access to and along the coastal marine area;
  - Balances public and private interests / benefits; and
  - Is fair and equitable to the District's rate payers.
- 5.22 Court-assisted mediation was scheduled by the Environment Court for 19 November 2015.
- 5.23 In advance of Court-assisted mediation, representatives for Mokau Sands Limited and Council met in Hamilton on 5 November 2015 to engage in direct negotiations on a without prejudice basis to see if matters could be settled between them.

- 5.24 As expected, Mokau Sands Limited sought a financial contribution from the Council to reflect the extent to which it considered a public benefit to accrue from the road to vest in the Council.
- 5.25 The Council's position was that it was not inclined to make a significant contribution to the appellant in circumstances there may be better locations to spend money securing formal public access to the Coast than the appellant's site.
- 5.26 Accordingly, the parties agreed to resolve the appeal by the Council deleting the requirement that Mokau Sands Limited vest land in the Council for road.
- 5.27 The parties were satisfied that the proposed development still conforms with Part 2 of the RMA by continuing to preserve and enhance the natural character of the coastal environment through dune restoration, planting and building form (s 6(a) RMA) and maintaining public use, enjoyment and access along the coastal marine area adjoining the land (s 6(d) RMA).
- 5.28 A joint memorandum and draft Consent Order recording the agreement was lodged with the Environment Court. The appeal will be resolved by the Court issuing a final Consent Order.
- 5.29 The Environment Court's Minute dated 1 December 2015 questioned whether there is any potential conflict between the conditions of consent and the supporting documents required (as listed under Condition 1 of the land use consent and the subdivision consent).
- 5.30 Having considered the Court's question, the parties, have agreed the following:
  - All documents supporting the application should be listed under Condition 1 of the land use subdivision consent, as those documents incorporate changes to the application as originally lodged.
  - Where the conditions of consent refer to a specific supporting document or plan, this document or plan should be expressly referred to under that condition and annexed to the conditions of consent.
  - To avoid any potential conflict between the conditions of consent and the supporting documents Condition 1 of the land use and subdivision consent should be amended to include the following clause:
    - "In the event that there is any conflict between the Conditions of consent and the supporting application documents under Condition 1, the conditions of consent shall prevail."
- 5.31 An amended set of conditions to address the agreed response to the Court's Minute was submitted to the Environment Court on 15 January 2016.
- 5.32 The Court has recently come back to the parties with further issues.
- 5.33 The main concern of the Court is the waiver of the requirement for an esplanade reserve. The Commissioner noted it is clear from the Council's decision that the waiver of the requirement for the esplanade reserve was based on provision for the road to be vested in WDC.
- 5.34 The Commissioner noted that it has implications regarding the provisions of the NZ Coastal Policy Statement and the decision the Judge must make pursuant to the Resource Management Act. Further explanation was requested.

5.35 Explanation was provided as follows:

"The parties consider the resolution conforms to the relevant requirements and objectives of the Resource Management Act, including Part 2 because the proposed subdivision, use and development of the land continues to preserve and enhance the natural character of the coastal environment through dune restoration, planting and building form in accordance with section 6 of the Resource Management Act and maintains public use, enjoyment and access along the coastal marine area adjoining the land."

- 5.36 The Court requested a more in depth explanation than this. The Commissioner stated emphasis on the drafting and workability of conditions arises from a recent case which emphasized the need for the Court to have confidence in the application of conditions presented to it.
- 5.37 A Joint Memorandum of the Parties was lodged with the Courts on 9 May 2016.
- 5.38 At the time of writing this business paper a response has not been received from the Courts, it is however expected that a Consent Order will be issued.

#### Suggested Resolution

The Progress Report: Resource Consent Applications be received.

# **1.0** Purpose of Report

- 1.1 The purpose of this business paper is to brief Council on progress of the three waters Operational, Maintenance and Capital Works including contracted out services.
- 1.2 This business paper is set out under the following headings:
  - 1.0 Purpose of Report
  - 2.0 Local Government Act S.11A Considerations
  - 3.0 Risk Considerations
  - 4.0 Background
  - 5.0 Service Requests/Complaints
  - 6.0 Treatment Plant Statistics
  - 7.0 Commentary
  - 8.0 Capital Projects

# 2.0 Local Government Act S.11A Considerations

- 2.1 Waitomo District Council, in performing its role as a Local Authority, must have particular regard to the contribution that the network three waters infrastructure makes to the community.
- 2.2 The provision and maintenance of the water, sewerage and stormwater infrastructure, is consistent with section 11A Local Government Act 2002 (including amendments).

# **3.0 Risk Considerations**

3.1 This is a progress report only, and as such no risks have been identified in regards to the information contained in this business paper.

# 4.0 Background

4.1 The three Waters activities (Water Supply, Wastewater and Stormwater) provide for the environmentally safe extraction, treatment and distribution of water. Collection, treatment and disposal of wastewater and the collection and disposal of rainwater within Council's stated parameters.

- 4.2 Water Supply networks are provided by Council at:
  - Te Kuiti Piopio
  - Mokau
     Benneydale
- 4.3 Wastewater networks are provided by Council at:
  - Te Kuiti Piopio
  - Benneydale
     Te Waitere
- 4.4 WDC's only reticulated Stormwater network is in Te Kuiti and any exceptions will be reported on for the other areas as these arise.
- 4.5 There are three activities under each of the three Waters activities:
  - 1 **Planned Maintenance:** Operation and maintenance involves the planned servicing of the three waters infrastructure reticulation, pump stations, cleaning reservoirs, replacing old water meters, hydrants and valves.

These activities are predominantly contracted out and at present are performed by Veolia Water by means of Schedule which is worked out in accordance with the operating instructions from the manufacturer or best practices.

- 2 **Emergency Repairs:** Emergency Repairs are dealt with as they occur. They are usually dealt with immediately, and at times this impacts on the delivery of Planned Maintenance and Service Requests, which is postponed to a later time.
- 3 **Service Requests / Complaints:** Service Requests are initiated by Ratepayers or Businesses across the District and are phoned in, emailed or they could be provided to the Customer Services by means of walk-in. Service Requests are logged and forwarded to the Water Services Unit to resolve with the Contractor as a resource as needed.

# 4.6 <u>Capital Works</u>

4.7 Progress reporting on Capital Works will predominantly focus on Renewals and Upgrades.

# 4.8 <u>Water Rates and Charges</u>

4.9 Residential and small business water rates are charged quarterly. Extraordinary water user meters are read half yearly. The two major Trade Wastewater user meters are read monthly and charged monthly.

# 5.0 Commentary

# 5.1 <u>Te Kuiti Water Supply</u>

5.2 The pipe work for two of the four filters was replaced and is operating well. During the backwash trial for the new filter pipework it was indentified that the supplied pump was not delivering adequate water head to effectively backwash the filter. A new pump was ordered. Once it arrives toward the end of May it will be installed and tested.

5.3 Due to the plant only operating effectively on two filters with reduced treated water production it was decided to remain on Water Restriction Level 4. This restriction will be lifted once the other two filters are upgraded.

15

5.4 Due to the development of the new Gull Service Station the water main required upgrading, as that area is fed through a 32 mm PE pipe. As the Te Kumi Loop Road pipe was also due for upgrading (that area is fed through a 25 mm PE pipe) that section of pipe was also upgraded at the same time. Historical issues were also resolved, as pipes were interconnected and could not be shut off when required. The Haines Terrace water main was replaced due to severe corrosion of fittings and the poor condition of the fiber cement pipe.

#### 5.5 <u>Te Kuiti Wastewater</u>

5.6 A manhole in Haines Terrace was replaced and several holes and breaks in the pipe were repaired. No major incidents to report.

#### 5.7 <u>Te Kuiti Stormwater</u>

- 5.8 The Stormwater reticulation network is designed for 1 in 2 year rainfall events.
- 5.9 A section of Haines Terrace stormwater pipe was repaired where it caused damage to private property. The pipe has been identified for urgent replacement and relocation. The King Street East storm water pipe repair project is under way with the contractor having moved onto site.
- 5.10 A new 1,800mm diameter manhole was installed in Hospital Road, as well as several lengths of 1,050mm diameter concrete pipe to prevent the erosion to the driveway of 32 Hospital Road.

#### 5.10 Piopio Water Supply

5.11 No exceptional incidents occurred during this period.

#### 5.12 Piopio Wastewater

5.13 The septic tank at the Owl's Nest Motel has been replaced with the larger septic tank to accommodate the increased waste volume generated by the new Motel business. At the request of The Fat Pigeon Café, installation of the removed tank from the Motel has been delayed until they have completed some catering work. The smaller tank at Owl's Nest has been replaced and relocated to the Fat Pigeon and this work is now complete.

#### 5.14 Benneydale Water Supply

5.15 No incidents to report.

#### 5.16 Benneydale Wastewater

5.17 A report on the reevaluation of the Benneydale waste water reticulation system was undertaken. The reticulation was thoroughly cleaned, flushed and specific areas of interest were inspected by CCTV. Once the CCTV report is studied the reticulation will be repaired and / or rehabilitated as required. Following the re-evaluation it is necessary to replace 1 pipe bridge and 3 local repairs to the Benneydale waste water reticulation. Contractors will be requested to price this during May.

#### 5.18 Mokau Water Supply

- 5.19 The Mokau Dam Safety Upgrades are underway with the Contractor appointed and on siteThe contract works are progressing well and the project is on schedule.
- **5.20** The water treatment plant backwash tank has a tear in it due to ground movement. A new tank was ordered that was damaged in a fire resulting from a vehicle bursting into flames near it. A new tank has been ordered. A new platform requires to be built with some pipework and electrical changes required.
- 5.21 The Mokau water mains replacement at Oha / Tainui Street

#### 5.22 <u>Te Waitere Wastewater</u>

5.23 Te Waitere Wastewater pump stations operated without any faults.

# 6.0 Capital Projects

# **Suggested Resolution**

The Progress Report: Monthly Assets Group Report for Water, Sewerage and Stormwater – April 2016 be received.

ANDREAS SENGER MANAGER – WATER SERVICES

I X

# **1.0** Purpose of Report

- 1.1 The purpose of this business paper is to brief Council on Solid Waste operations, maintenance and capital development activities. This business paper is set out under the following headings:
  - 1.0 Purpose of Report
  - 2.0 Local Government Responsibilities
  - 3.0 Risk Considerations
  - 4.0 Introduction
  - 5.0 Background
  - 6.0 Te Kuiti

#### 2.0 Local Government Responsibilities

- 2.1 The Waste Minimisation Act encourages a reduction in the quantity of waste generated and disposed of in landfills, with the aim of reducing the environmental harm of waste while providing economic, social and cultural benefits.
- 2.2 WDC is meeting its obligations under the 2008 Waste Minimisation Act and the Solid Waste (asset) Management and Minimisation Plan (SWaMMP), by providing a weekly Kerbside Refuse and Recyclables Collection Service and disposal thereof in parts of the district and Transfer station for the remainder of the district.

#### 3.0 Risk Considerations

3.1 This is a progress report only, and as such no risks have been identified in regards to the information contained in this business paper.

# 4.0 Introduction

4.1 This business paper focuses on the operations of the Solid Waste activity, refuse and recyclable collection and disposal, and the promotion of recycling.

# 5.0 Background

- 5.1 Solid Waste Management is the combination of asset management, financial, engineering and technical practices to reduce and dispose of general refuse and the promotion of waste minimisation.
- 5.2 The Solid Waste Activity provides for education on waste minimisation, collection and separation of recyclables, and the disposal of residual waste to landfill.

#### 5.3 Solid Waste Services

- 5.4 WDC is meeting its obligation under the 2008 Waste Minimisation Act and SWaMMP by providing:
  - 1 Weekly Kerbside Refuse and Kerbside Recyclables Collection Services for the communities of -
    - Te Kuiti
    - Piopio
    - Mokau
    - Waitomo Village
    - that part of the Rural Ward between Te Kuiti and Waitomo Village
  - 2 Waste Transfer Stations in the communities of -
    - Benneydale
    - Piopio
    - Marokopa
    - Kinohaku
    - Mokau/ Awakino

#### 3 Street Side Recycling Stations at -

- Waitomo Village
- Piopio
- Mokau
- Marokopa

#### 5.5 <u>Management of Solid Waste Services</u>

- 5.6 Collection Services (both Refuse and Recyclables) are carried out under contract. The present Contractor is Envirowaste.
- 5.7 Management of the refuse at **Te Kuiti Landfill** is carried out under contract. Envirowaste also holds this contract.
- 5.8 **Piopio Litter Bins** are serviced by WDC's Internal Services Unit on Mondays and Fridays.
- 5.9 **Te Kuiti and Waitomo Village Litter Bins** are serviced through WDC's Road Maintenance Contract.
- 5.10 **Mokau Litter Bins** are serviced under contract with a private person.
- 5.11 **Marokopa Litter Bins** are serviced by the Marokopa Community Trust under a long standing agreement with WDC.
- 5.12 **Benneydale Litter Bins** are serviced by the Council Transfer station operator.

#### 5.13 Service Requests / Complaints

- 5.14 Service requests are initiated by ratepayers or businesses across the District. The Service Requests are then followed up by WDC staff.
- 5.15 Almost all of the Service Request complaints received for kerbside refuse or recyclables not being collected, were due to the person placing the bag or recycle bin out too late.

5.16 Service Requests or complaints relating to Solid Waste operations and/or Solid Waste Assets for 2015/2016 include:

20

| Description                   | 15/16 | Aug<br>2015 | Sep<br>2015 | Oct<br>2015 | Nov<br>2015 | Dec<br>2015 |

5.17 Three complaints have been received this month relating to the odor emitting from the Te Kuiti Landfill. An investigation was carried out and it was found that the contractor have not significantly covered the exposed waste in accordance with the existing contract. The matter was discussed with the Operations manager at the landfill. He has given the undertaking that Envirowaste will ensure that they will comply with the contractual obligations The matter was resolved.

#### 6.0 Te Kuiti

- 6.1 The Te Kuiti Landfill has a consented volume of 232,000 tonne and the Resource Consent expires in 2032.
- 6.2 Revenue for the Landfill is trending downward as a direct result of reduced levels of waste being deposited.

#### 6.3 <u>Emissions Trading Scheme</u>

- 6.4 The Government has started on a review of New Zealand's carbon footprint and this may have a more significant impact on the cost of disposing rubbish in the future.
- 6.5 Consideration should be given to forward purchasing NZU's for all of remaining consented volume.
- 6.6 The impact of this review will be taken into account during the assessment of the future of the Landfill in preparation of the next LTP.

#### 6.7 <u>Landfill Volumes</u>

6.8 Landfill Consented Volume: 232,000 Tonnes

| Development Cell 3    | \$774,000.00         | \$641,686.20            | \$641,686.20            |                       |                        |
| High Wall Safety Work | \$51,600.00          | \$49,643.64             | \$49,643.64             |                       |                        |
| Recycling Shed        | \$50,000.00          | \$ 104,681.31           | \$ 104,681.31           |                       |                        |

6.12 There have been no changes in capital expenditure since October 2015.

#### 6.13 Development of the Cell 3

- 6.14 Development of Cell 3 is largely complete with only some remedial work outstanding. A total of \$41,580.00 excl. GST has been retained for repairs. This was included as an addendum to the practical completion certificate. The contract is now in the retention period. The retention amount is \$37,704.97 excl. GST.
- 6.15 The final contract value for this project was \$720,971.17 excl. GST.

#### 6.16 High Wall Shaping

6.17 High wall shaping involves the removal and shaping of earth above the landfill space and is carried out for safety purposes to prevent landslides. Whilst this work has been completed and the desired outcomes have been achieved for now,

the area remains unstable and future works are likely to be required to ensure ongoing safety.

#### 6.18 Recycling Shed

- 6.19 In order to promote recycling and provide a customer friendly, all weather recycling service, a roof over the recycling area has been constructed.
- 6.20 This project has been completed and has been well received by the public utilising the facility.

#### 6.21 Recycling Area - Health and Safety Improvements

- 6.22 A recently completed Health and Safety Audit identified the need to further improve safety around the recycling area. The Audit raised the concern that the trucks servicing the recycling area continued to remove the skips and bins from the front "public area" and not from the rear as intended.
- 6.23 To enable compliance with the findings of the Health and Safety Audit, further improvements to the area behind the recycling area are required. The improvements include:
  - Extension of the existing hard stand area by 3m to the north to improve safe manoeuvring of the service trucks.
  - Shape-grading and rolling of the existing hardened area (approx. 400m<sup>2</sup>).
  - Establishment of "V" drains to the rear of the hardened area to improve stormwater flows.
- 6.24 This work was tendered and the successful tenderer, Inframax, has started work this month.

#### Suggested Resolution

The Progress Report: Solid Waste Activity – March April 2016 be received.

VIKUS JOUBERT MANAGER – OPERATIONAL SERVICES

April May 2016

| Document No: 3945           | 43            | File No: 037/020/12B   |
|-----------------------------|---------------|--|
| <b>Report To:</b>           | Council       |  |
| 1                           | Meeting Date: | 31 May 2016  |
| Waltomo<br>District Council | Subject:      | Progress Report: Monitoring Against<br>2015-2025 Long Term Plan – Land<br>Transport (May 2016) |

# **1** Purpose of Report

- 1.1 The purpose of this business paper is
  - To brief Council on the implementation of the Work Plan for the Land Transport activity as contained in Year One (2015/2016) of the 2015-2025 Long Term Plan (LTP)
  - To establish a framework for monitoring the ongoing implementation of the 2015-25 LTP as part of the Road Map Work Programme.
- 1.2 This business paper is set out under the following headings:
  - 1 Purpose of Report
  - 2 Local Government Act S.11a Considerations
  - 3 Risk Considerations
  - 4 Introduction
  - 5 Background
  - 6 Roading Subsidies
  - 7 2015/2016 Maintenance Expenditures Budget
  - 8 Safer Journeys 2015 to 2018 (Road Safety Promotion 431–433)
  - 9 2015/2016 Operating Expenditure
  - 10 2015/2016 Capital Expenditure
  - 11 Summary of Network Issues
  - 12 One Network Road Classification (ONRC)
  - 13 RATA (Road Asset Technical Accord)
  - 14 Streetlighting (LED)
  - 15 Road Maintenance Procurement
  - 16 Road Maintenance Progression Report

# 2 Local Government Act S.11a Considerations

- 2.1 Waitomo District Council, in performing its role as a Local Authority, must have particular regard to the contribution that the network infrastructure makes to the community.
- 2.2 The provision and maintenance of the roading infrastructure, is consistent with section 11A Local Government Act 2002 (including amendments).

#### 3 **Risk Considerations**

3.1 This is a progress report only, and as such no risks have been identified in regards to the information contained in this business paper.

#### 4 Introduction

4.1 This business paper focuses on informing the Council on the operational and maintenance activities of the Roading division and on the Roading capital works programme.

#### 5 Background

- 5.1 The scope of Land Transport activities in the Waitomo District is almost entirely related to the roading assets. This includes:
  - Roads (excluding state highways),
  - Footpaths, bridges,
  - Traffic services,
  - Street lights
- 5.2 There are no passenger transport services available other than the inter-regional bus connections operating on the state highway network.
- 5.3 The nature of Council's roading activity is:
  - Managing and maintaining the District's road network.
  - Undertaking road rehabilitation and upgrading of the roading structure and ancillary systems such as street lights, signs and road markings.

#### 6 Roading Subsidies

- 6.1 New Zealand Transport Agency (NZTA), the national road funding authority, provides a financial assistance subsidy (62% FAR rate) for works that meet agreed criteria via the Land Transport Programme.
- 6.2 Commentaries detailing progress on activities currently subsidised by NZTA in the 2015/2016 year of the LTP are provided below. (Please note that these budgets are current and differs from the budgets in the original 2012-22 LTP due to transfers from one budget to another as required.)

#### 7 2015/2016 Maintenance Expenditures Budget

7.1 The LTP-budget for 2015/16 is \$5,030,528 and the total current budget for subsidised maintenance works for the 2015/16 year is \$5,000,528.00.

#### 8 Safer Journeys 2013 to 2015 (Road Safety Promotion 431–433)

#### 8.1 Introduction

- 8.2 The 2014/2015 Community Projects/Road Safety Promotion activity program was completed. Waitomo DC and Otorohanga DC are working together on this activity and share the allocated budget.
- 8.3 The Road Safety Promotion activities for 2015-18 ias guided by the NZTA/Waikato Bay of Plenty Investment section.

8.4 At present there is no Road Safety coordinator for the Waitomo District Council. The Road Safety Action Plan for the current year is <u>on hold</u> until a replacement or other option is agreed. Otorohanga District Council has obtained the temporary use of a Road Safety Coordinator for specific activities they were committed to.

#### 8.5 Road Safety Funding

8.6 The Road Safety Promotion activity started out at a higher FAR-rate funding than the rest of the NZTA funding. It started at 100% and was reduced each year until from 1 July 2015 it is at the WDC standard FAR rate (62±% for 2015-16, but changing each year if the FAR rate changes).

#### 8.7 Historic Outcomes Targeted

8.8 The work used to be based on the following targets (<u>typical examples</u>) of the different actions successfully completed in the past:

| PROJECT                         | DESCRIPTION   | DATE                |
|---------------------------------|---|---------------------|
| Motor cycle<br>safety course    | Road Safety Initiative advertisement  |                     |
| Lowered Legal<br>Alcohol Limits | Information card produced and distributed by the local police to hand<br>out to drivers. Also handed out to local liquor outlets Bars, taverns and<br>restaurants.  |                     |
| Plan B4U party<br>campaign      | To encourage locals to think before they party. A pamphlet, wrist-<br>bands, chocolates and tee shirts were printed with the Plan B4U Party<br>Message and distributed at the Te Kuiti Pool Party (28/11/2014), at the<br>Te Kuiti Christmas Parade, local businesses, and SADD students at our<br>four local high schools. |                     |
| Fatigue Stop                    | Raising awareness campaign in collaboration with Transfield and Police.<br>On the 4th over 38 cars stop with 38 people interviewed, 91 people<br>enjoyed the sausages and rest. More than 100 other cars were stop on<br>the road and handed fatigue bags and given messages about driving<br>safe.                         |                     |
| BTS Campaign                    | Check points to see how safe local children are traveling to and from<br>Te Kuiti and Otorohanga area primary schools. A coloring competition<br>was held with over 200 hundred entrees received. The winners<br>received new booster seats. Target area WDC  |                     |
| Bikewise                        | Two training days were held at centennial park to try and encourage people back on their bikes, bike safety and maintenance was covered at the training session. Target area WDC  |                     |
| Club champs                     | Player of the day caps and bags have been purchased and kits are<br>being put together for when the local rugby competition starts. A<br>training evening was held at the Waitete Rugby club rooms to<br>discussion the rules and regulations of running a clubroom and Bar.<br>Target areas WDC and ODC                    |                     |
| Seniors Drivers                 | A questionnaire is being sent out to all seniors in regards to driving and road safety issues. A training discussion morning is being planned to help answer questions. Target areas WDC and ODC  |                     |
| SADD                            | A group of local children are being taken to attend a training session in Morrinsville on the $20^{th}$ March. This will be the first introduction to how SADD works and is a very important learning step for our new SADD students. Target areas WDC and ODC  |                     |
| Rural Roads                     | 500 Safe'T'Shells are being purchased to help keep our rural kids safe<br>while walking to catch buses. This will be the starting point for my<br>Rural Road campaign. All Rural schools are being contacted to see how<br>many bus children and children are involved.<br>Target areas WDC and ODC                         | <del>On going</del> |

#### 8.9 **Future Situation**

•

8.10 Because the changes in the FAR funding rate required a higher local share, it was deemed opportune to review the future delivery model options in order to fit a delivery solution to best match the needs of the communities in the two councils.

8.11The following considerations forms part of this review:

| DESCRIPTION OF SERVICE  | CURRENT<br>BUDGET      | EXPENDITURE<br>TO DATE | COMMENTS  |
|---|------------------------|------------------------|---|
| Total Maintenance Expenditures<br>(excluding Loss on Asset<br>Disposal) | <del>\$5,000,528</del> | <del>\$3,949,000</del> | Expenditure to date = 79%   |
| Road Safety Promotion 431 –<br>433                                      | <del>\$120,000</del>   | <del>\$25,000</del>    | Currently on hold and under re-<br>evaluation.  |
| Emergency First Response 106<br>(GL = 730 31 715)                       | <del>\$180,000</del>   | <del>\$186,000</del>   | Works done under this category include trees blown down over roads and slips.   |
| Environmental Maintenance 121   | <del>\$370,000</del>   | <del>\$448,000</del>   | The NZTA has changed their criteria on<br>what they allow under Emergency<br>Works and the result of that is that<br>some work we previously could do<br>under Emergency Work, now has to be<br>funded under this Environmental<br>Category. Other work includes<br>Hazardous Trees, Pest Plant Control,<br>Mowing, etc. Budget shortfall will be<br>covered by savings under other<br>budgets like Structures Maintenance<br>and Unsealed Pavement Maintenance |
| Environmental Maintenance 121<br>For Stock Effluent Facility            | <del>\$30,000</del>    | <del>\$38,000</del>    | Ongoing Maintenance of the Stock<br>Effluent facility, including water,<br>electricity and trade waste levies.<br>Budget shortfall will be covered by<br>savings under other budgets like<br>Structures Maintenance and Unsealed<br>Pavement Maintenance  |
| Level Crossings   | <del>\$15,000</del>    | <del>\$27,000</del>    | As required by Kiwi rail Budget shortfall<br>will be covered by savings under other<br>budgets like Structures Maintenance<br>and Unsealed Pavement Maintenance   |
| RBU Unit Costs  | <del>\$1,051,528</del> | <del>\$722,000</del>   | Salaries, overheads and some consultant fees  |
| Routine Drainage Maintenance<br>113                                     | <del>\$380,000</del>   | <del>\$282,000</del>   | The bulk of these costs were from<br>Water table maintenance and Culvert<br>maintenance.  |
| Sealed Pavement Maintenance   | <del>\$1,400,000</del> | <del>\$1,364,000</del> | Pre reseal works and general sealed pavement maintenance.   |
| Structures Maintenance 114  | <del>\$175,000</del>   | <del>\$107,000</del>   | Routine maintenance on guardrails and bridge decks.   |
| Traffic Services Maintenance 122  | <del>\$100,000</del>   | <del>\$33,000</del>    | District wide maintenance of Signs and road furniture.  |
| Street Lights Maintenance 122   | <del>\$179,000</del>   | <del>\$149,000</del>   | Cyclic maintenance and electricity<br>costs make up this expenditure. The<br>maintenance of street lights are<br>affected largely by the amount of lights<br>that has to be replaced.   |
| Unsealed Pavement Maintenance<br>112                                    | <del>\$1,000,000</del> | <del>\$568000</del>    | Re-metalling of unsealed roads.   |
| Asset Management Plans  | \$                     | <del>\$0-</del>        | As required every 3rd year.   |

- To bring all the stakeholders, both agencies and our local community together in developing a delivery plan.
- To establish stronger governance arrangements in developing programmes and in overseeing delivery.
- Assess opportunities to deliver part of the promotion effort through local providers and to target our local youth in particular.

- Assess opportunities to use a grants funding arrangement to encourage both local community engagement and targeted grass roots delivery.
- 8.11 WDC and ODC have indicated a preference to continue working together on a joint ODC/WDC community delivery model. The WDC's stated focus is on young driver training. The other targets (as described above) are of very low priority in that context. ODC supports the primary focus, but has indicated that they would still want to also fund some other targets besides the young driver training. They may also opt to add some discretionary funding to help fund their targets. A proposed program is under development to submit to the NZ Transport Agency for approval. The objective at this stage is to develop a 3-year program that includes a primary focus on young driver training outcomes.
- 8.12 The proposal is currently being developed by a joint WDC and ODC team. The latest meeting was held on 18/04/2016 and Hillary Karaitiana the Social Sector Trials manager attended and informed the group about important considerations. Also of note is that the NZTA had appointed a consultant to assist them with this programme. His name is Kevin Collins. A draft proposal is under development and is beingwill be discussed with Kevin Collins at the next meeting scheduled for 26 April 2016.
- 8.13 The primary objective is to reduce road accidents by creating the best practice model for driving training in rural New Zealand towns. The working group for this exercise is Kobus du Toit, Johan Rossouw, Helen Beaver, Donna MacDonald and Roger Brady. Sign-off will be given by the executive group consisting of Chris Ryan, Brian Hanna, Max Baxter and Roger Brady.
- 8.14 This working group has had several meetings over the last two months and the draft proposal has been presented to Kevin Collins of the NZ Transport Agency.
- 8.15 Kevin Collins has sent an update dated 20 May 2016 to confirm that a meeting is scheduled for 2 June 2016 with the working group to discuss and decide further details in order to submit the completed proposal to NZTA by mid June. WDC and ODC will then have to put an updated activity plan into TIO from 1 July 2016, complete the evaluation of this year's program on the current activity plan and collaborate with NZRTA on some media releases about the programme.

#### 9 2015/2016 Operating Expenditure

#### 9.1 Budget Update

| DESCRIPTION OF SERVICE  | CURRENT<br>BUDGET | EXPENDITURE<br>TO DATE | COMMENTS  |
|---|-------------------|------------------------|---|
| Total Maintenance Expenditures<br>(excluding Loss on Asset<br>Disposal) | \$5,000,528       | \$4,095,840            | Expenditure to date = 81.9%   |
| Road Safety Promotion 431 –<br>433                                      | \$120,000         | \$2,173                | Currently under re-evaluation.  |
| Emergency First Response 106<br>(GL = 730 31 715)                       | \$180,000         | \$199,917              | Works done under this category include trees blown down over roads and slips. |

| DESCRIPTION OF SERVICE                                       | CURRENT     | EXPENDITURE | COMMENTS  |
|--|-------------|-------------|---|
|  | BUDGET      | TO DATE     |   |
| Environmental Maintenance 121                                | \$370,000   | \$486,233   | The NZTA has changed their criteria<br>on what they allow under Emergency<br>Works and the result of that is that<br>some work we previously could do<br>under Emergency Work, now has to<br>be funded under this Environmental<br>Category. Other work includes<br>Hazardous Trees, roadside mowing, |
|  |             |             | Pest Plant Contract - \$71,500.00   |
| Environmental Maintenance 121<br>For Stock Effluent Facility | \$30,000    | \$46,889    | Ongoing Maintenance of the Stock<br>Effluent facility, including water,<br>electricity and trade waste levies.  |
| Level Crossings  | \$15,000    | \$27,272    | As required by Kiwi rail  |
| RBU Unit Costs   | \$1,051,528 | \$674,078   | Salaries, overheads and some consultant fees  |
| Routine Drainage Maintenance<br>113                          | \$380,000   | \$303,619   | The bulk of these costs were from<br>Water table maintenance and Culvert<br>maintenance.  |
| Sealed Pavement Maintenance 111                              | \$1,400,000 | \$1,407,112 | Pre-reseal works and general sealed pavement maintenance.   |
| Structures Maintenance 114                                   | \$175,000   | \$116,373   | Routine maintenance on guardrails and bridge decks.   |
| Traffic Services Maintenance 122                             | \$100,000   | \$30,750    | District wide maintenance of Signs and road furniture.  |
| Street Lights Maintenance 122                                | \$179,000   | \$201,266   | Cyclic maintenance and electricity<br>costs make up this expenditure. The<br>maintenance of street lights are<br>affected largely by the amount of<br>lights that has to be replaced.   |
| Unsealed Pavement Maintenance 112                            | \$1,000,000 | \$600,157   | Re-metalling of unsealed roads.   |
| Asset Management Plans                                       | \$0         | \$0         | As required every 3 <sup>rd</sup> year.   |

#### 9.2 Spending and Budgeting Advisory:

- 9.3 In general, it is of note that the current budget falls within the 3-Year GOP budget grouping of 2015/16 to 2017/18. This means that the NZ Transport Agency allows flexibility in the budget so that funding can be carried over between the different financial years.
- 9.4 Due to the reasons explained above, the intention is that the bulk of the current budget for Road Safety Coordination will be carried over to the next financial year. The expectation is that only about \$30,000 of the current \$120,000 budget will be spent by ODC.
- 9.5 The current budget for Emergency First Response is \$180,000 and we expect to spend up to about \$216,000 by the end of this financial year due to more first Response works required. The expectation is that the shortfall will be funded from the unspent portion of the \$820,000 budget available for Emergency Projects which, for the first time in many years, has not been required as Waitomo has not suffered any large scale (over \$100,000 events).
- 9.6 Current budget for Eenvironmental Mmaintenance is \$400 000 for the 2015/2016 financial year, and we expect to spend up to about 526,000 by the end of this financial year due to the reason that works that previously qualified under Emergency works, now has to be done under this category. The shortfall will be funded from the unspent portion of other maintenance categories like Structures Maintenance and Unsealed Pavement Maintenance and any available Emergency funds.

- 9.7 The current budget for Stock Effluent is \$30,000 and we expect to spend up to about \$45,000 by the end of this financial year due to the fact that this is the first year that this facility is in operation. There are more trucks using this facility than anticipated. The Regional Council contributes a maximum of \$15,000 to this and NZTA the FAR rate. The shortfall will be funded from the unspent portion of other maintenance categories like Structures Maintenance and Unsealed Pavement Maintenance.
- **9.8** The current budget for Level Crossings is \$15,000 and we expect to spend up to about \$27,000 by the end of this financial year due to Kiwirail costs for repairs which they pass on. The shortfall will be funded from the unspent portion of other maintenance categories like Structures Maintenance and Unsealed Pavement Maintenance.
- **9.9** The current budget for Routine Drainage Maintenance is \$380,000 and we expect to spend up to about \$470,000 by the end of this financial year due to having to do substantially more culvert cleaning. The shortfall will be funded from the unspent portion of other maintenance categories like Structures Maintenance and Unsealed Pavement Maintenance.
- **9.10** The current budget for Sealed Pavement Maintenance is \$1,400,000 and we expect to spend up to about \$1,487,000 by the end of this financial year due to the high lip requirement. The shortfall will be funded from the savings achieved under the budget available for Unsealed Pavement Maintenance.
- **9.11** The current budget for Structures Maintenance is \$175,000 and we expect to spend up to about \$135,000 by the end of this financial year due to lower maintenance requirements this year. This balance will be used to fund other maintenance categories.
- 9.12 The current budget for Street Lights is \$125,000 and we expect to spend up to about \$205,000 by the end of this financial year due to the demand. The shortfall will be funded from the savings achieved under the budget available for Unsealed Pavement Maintenance.
- **9.13** The current budget for Unsealed Pavement Maintenance is \$1,000,000 and we expect to spend up to about \$600,000 by the end of this financial year due to lower maintenance requirements. This balance will be used to fund other maintenance categories.
- 9.2Forecast expenditure for the 15/16 year is \$571,500.00. This is made up of:
  - •Environmental maintenance \$500,000.00 which includes maintenance aspects such as roadside mowing, spraying and removal of exotic trees and weeds to cover the work previously allowed under emergency repairs.
  - •Pest Plant Contract \$71,500.00 which is allocated for the spraying of noxious / pest plants / weeds
- 9.3The district has numerous trees that have reached maturity and require removing due to the hazards they pose. This activity is funded from the Environmental Maintenance Budget.
- 9.4Estimated spend on hazardous trees removal for the 15/16 financial year is expected to be in the region of around \$65,000.00. This will be financed from the sealed pavement maintenance budget, the largest of the operational budgets (\$1.4 Million)

9.5It is proposed that future environmental maintenance budgets be increase from \$400,000 to \$500,000 to take into account the costs of pest plant control and hazardous trees removal.

# 10 2015/2016 Capital Expenditure

10.1 The total LTP-budget for 2015/16 is \$5,500,000 and is fully subsidised.

#### 10.2 A separate report to Council serves to report details on the Major Capital Works.

| DESCRIPTION OF SERVICE   | CURRENT<br>BUDGET                                  | EXPENDITURE<br>TO DATE                       | COMMENTS   |

#### **11** Summary of Network Issues

- **11.1** Kawhia Harbour Road Slip Sites: Thirteen Slip sites have been identified along this section of road. All but two of them consist of both Underslips/Washouts on the lagoon side and Fretting/Over slips on the opposite side. These sites have been inspected and measured up and prioritised.
- 11.2 Mass concrete blocks have been installed along some sections of the over slip sites in order to reduce the effects of continuing fretting from the cutting side. Further sections will be completed over time as funding allows. This method is proving to be effective in reducing the problem of small rocks and stones landing on the road with risk to the traffic. A work programme has been compiled, subject to Consent approval from WRC and Iwi consultation. The revised start of construction is targeted for September 2016.
- 11.3 Extreme weather over the last few summers resulted in an increase of expenditure on our unsealed roading network due to more frequent pavement repairs, lost aggregate and dust. This ongoing work is now starting to show resulting improvement in the general condition of unsealed roads.
- 11.4 Hazardous trees are becoming a regular issue on many roads, including Te Anga, Boddies, Fullerton and Lees Block Roads. These are dealt with under the emergency reaction budget. Inframax has priced it as reactive works and it is currently estimated that the removal of these trees would cost approximately \$18,000.00. Work is ongoing.

#### 11.4Additional work is required to clear blocked culverts and savings from unsealed road metalling are currently considered for reallocation to fund these works.

- 11.5 The Oparure Road pavement rehabilitation program is currently underway.
- 11.6 The Totoro Road pavement rehabilitation of the first section is deferred to the next financial year due to consent issues and additional funding requirements. (The second section of Totoro Road pavement rehabilitation was completed last year.)
- 11.7 The structural Bridge Maintenance Contract is underway.
- 11.8 The Kumara Road underslip repair project is underway.
- 11.9 Some of the capital projects (Mangatoa Rd slip, Te Waitere Rd underslip, Taharoa Rd subsidence) have been started only up to the phase of survey and concept Design. Funding balances will be carried over to the next financial year as applicable.
- 11.10 It has transpired that the previous Maintenance Contractor Downer, has not completed the cleaning of all the storm water culverts under roads as part of their contractual requirements. Subsequent inspections have revealed 107 blocked culverts, which is now being cleaned by the incumbent contractor, Inframax. This work is being done on day rates and the final cost is unsure as the amount of work required to clean these culverts can vary from about one hour to several hours per culvert. Careful record keeping is in place to record

this. This work has commenced and is expected to carry on fover the winter months as long as required. The budget impact may be significant and at the moment is estimated at around \$170,000 according to an estimate by ICL.

#### 12 One Network Road Classification (ONRC)

- 12.1 The Road Efficiency Group (REG) is a collaborative initiative by the road controlling authorities of New Zealand. Its goals are to drive value for money and improve performance in maintenance, operations and renewals throughout the country.
- 12.2 REG focuses on three key areas:
  - A One Network Road Classification (ONRC) to standardize data and create a classification system which identifies the level of service, function and use of road networks and state highways
  - Best Practice Asset Management to share best practice planning and advice with road controlling authorities
  - Collaboration with the industry and between road controlling authorities to share information, staff and management practices.
- 12.3 This report focuses on the work completed to date on the ONRC. The ONRC has three elements.
  - The first element is classifying roads into categories based on their function in the national network. This was completed in December 2014.
  - The second element is the Customer Levels of Service (CLoS), defining the "fit for purpose outcomes" for each category in terms of mobility, safety, accessibility and amenity.
  - The third element is the development of the performance measures and targets, which effectively determine how the categories and customer levels of service translate into specific maintenance, operational and investment decisions.
- 12.4 The process of applying performance measures to our network, meanwhile, is underway. WDC will need to consider the ONRC CLoS and performance measures when applied in the local context to the network, and assess current performance in relation to the REG provisional targets.
- 12.5 Definition and clarification around the meaning of "Fit for Purpose" is still being worked on by NZTA. It is expected to be implemented over the period 2015 2018.
- 12.6 A number of required actions have been identified over the coming three year period to ensure that the ONRC is embedded fully by 2018. This is in line with the expectation from REG that all funding applications for the 2018-2021 National Land Transport Plan will be based on a fully implemented ONRC enabling investment in outcomes that are consistent and affordable throughout the country. The actions identified to be relevant for WDC have been documented into a preliminary "Transition Plan".

#### 12.7 Financial Status

- 12.8 As evaluated there are no specific financial implications on the current budget other than an administrative cost for managing this transition process. We are in the process to measure this additional time requirement.
- 12.9 The regional roading collaboration for strategic asset management (RATA Road Asset Technical Accord) is supporting the work being undertaken to implement the ONRC within the Waikato. Various work items such as the development of Emergency Procedures and Response Plan(s), Network Resilience, Maintenance, Monitoring and Priority Improvement Plan(s), benchmarking of performance measure outcomes, are anticipated as being completed by RATA with support from each participating Council.

#### 12.10 Assessment of Significance and Engagement

12.11 The issues discussed in this report have a medium degree of significance because this work will affect the delivery of future levels of service on the roading network. Community feedback will be gauged as a part of embedding the ONRC into the strategic and tactical asset management planning and delivery. The purpose of the ONRC is to develop consistent levels of service across the country. This will have to be communicated with the public in order to manage expectations. The final LoS may or may not be affordable or appropriate when applied in the local context.

#### 12.12 Maintenance and renewing sealed pavements under ONRC

- 12.13 The customer focused service levels of the ONRC require a modified approach to traditional asset management if they are to be delivered effectively and efficiently. This is because they focus effort on customers and outcomes and not on outputs, requiring outputs to be sufficient to minimise long term life cycle costs and meet service level targets.
- 12.14 The One Network Road Classification framework has customer levels of service related to:
  - Effective access
  - Pavement safety
  - Ride comfort, and
  - Cost effective provision.
- 12.15 The level of service targets and performance measures essentially require that there should be no pavement defects that, at the operating speed :
  - Impede access
  - Are unsafe
  - Are uncomfortable
  - and that Maintenancethat Maintenance and renewal of the surface and pavement should be cost effective and efficient.

# 13 RATA (Road Asset Technical Accord)

13.1 RATA (Road Asset Technical Accord) is the Centre of excellence for road asset planning in Waikato. It is the vehicle by which Waikato's councils co-operate over

- 13.2 WDC is participating in the RATA Multi-Party Data Collection contract for the core Services (Roughness Survey and RAMM Condition Rating Survey), as well as with the one additional Service of Footpath Condition Rating.
- 13.3 WDC had at the time, opted out of the RATA arranged Traffic Counts collections, because it was deemed cheaper by about \$6,000.00 per annum. This option has now been reviewed, as there are benefits to be gained by being part of the RATA data collection process. It is of benefit to be part of the collective RATA Contract because the data is used for comparative benchmarking and if WDC collect data differently, it could affect the usefulness of that effort.
- 13.4 RATA has an Offer of Service form BECA consultants to carry out traffic volume counts and vehicle classification counts on behalf of RATA. The intention of engaging BECA is to review and improve participating councils RAMM data quality. The benefits in engaging the services of one service provider is:
  - Consistent confirmation of data health
  - Identified numerous deficiencies and improvement requirements
  - Saving \$17,000 vs engaging consultants separately
- 13.5 The RAPT report (report on road maintenance and renewal practices across the region) was made available by January 2015. Good practical information was received based on best industry practices in road maintenance and pavement rehabilitation. A new RAPT Tour is scheduled for 1 October 2015 at which time the intention is to inspect our selection of roads identified for the upcoming Reseals programme and for the Pavement Rehabilitation programme. The discussions will include a review of the business case approach for the selected treatments. We shall also visit some recent projects to "showcase" good examples of how we dealt with specific challenges.
- 13.6 In February 2015 a Road Asset manager's forum was formed under the auspices of RATA. The group is meeting once month to discuss RAMM, ONRC Transition Planning, ONRC Performance Measures (the Customer Outcome Measures, Technical Outcome Measures and Cost Efficiency Measures) and the Transition Plan. Monthly meetings are scheduled to share developments and learning about a range of topic including Seal age, ONRC, Forward Works Programmes, treatment selection decision making, Data use in asset management and RAMM.
- 13.7 WDC will take up the RATA managed traffic counting program in future. This work is currently contracted to BECA. BECA has prepared program to include a list of specific sites that WDC requires to include quarry and logging sites.

# 14 Streetlighting (LED)

14.1 NZTA see LED lighting as a major potential cost saver. Indications gleaned from industry information are that the expected savings are being realized more and more as technology rapidly advances and more experience with LED Streetlighting are being recorded. The whole argument is based on energy saving and lower maintenance costs for installations. Feedback from contractors indicates promising performance levels with 5 year maintenance free operations from LED installations already recorded

- 14.2 LED lights now have similar light intensity levels as the existing equipment and when correctly installed the electrical controls have shown to be quite robust and maintenance free for extended periods.
- 14.3 Most of the existing street light equipment in Waitomo is mounted on aging power poles, but the latest LED streetlight options could possibly utilize spacing and light fittings from existing lighting installations. Changing over to LED streetlights will not alter the requirements for pole renewal.
- 14.4 WDC will access NZTA subsidies to convert to LED street lighting. Technology has reached the point where LED streetStreet lighting could be the better choice offering reduced energy consumption and proven maintenance savings. A business case has been prepared for the conversion subsidy offered.
- 14.5 A new tender document has been prepared for the Street Light Maintenance Contract which is now in tender phase. This document was prepared to accommodate the LED Replacement project scheduled over the next five years and incorporates an adjustment to allow for the expected reduced maintenance cost requirement of LED lights.

#### **15 Road Maintenance – Progression Report**

- 15.1 The new maintenance contract started on the 1<sup>st</sup> of October 2015 with the entered agreement between Inframax Contractors Limited and Waitomo District Council.
- 15.2 The maintenance contract has been divided into 24 maintenance zones. The zonal maintenance work to give an equal distribution of ratepayer funding to the entire roading network. This ensures that there is a measure of attention given to general maintenance of the entire network
- 15.3 An annual routine (zonal) road maintenance programme is based on two complete maintenance cycles of the entire network per year.
- 15.4 Monthly routine maintenance programmes will be drawn from 24 roading zones of approximately 40km each (sealed and unsealed) based on geographical sequence and asset planning data.
- 15.5 Full compliance with all the zonal requirements was not achieved (the target threshold performance scores for October and November were not met.) The main issues being the new zonal requirements for full compliance rather than the historical general physical works outcomes. The indication so far is that the new zonal format is resulting in an improving outcome on the whole.
- 15.6 The contractor term sits at the six month mark (by end of March 2016) and the evaluation to assess progress and performance levels is ongoing. The new minimum performance level standards for the first four consecutive months have not been achieved. The technical performance in executing works is acceptable, but an administrative issue such as late submission of programs and reports is a frustration. The start of the new form of contract (first six months period) is a settling in period for many new requirements and the first six months scores are not counted for the initial (Two years and six months) evaluation period. The target is a minimum average score of 400.
- 15.7 The Contractor has achieved an improved evaluation score over the last months and has achieved the best score to date for March at 350. An average score of 400 over the next two and a half years will be required in order for the Contractor

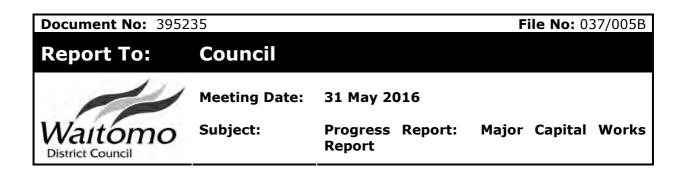

to qualify for an extension to the Contract term. The performance score for April is at the 355 level.

# **Suggested Resolution**

The Progress Report: Monitoring Against 2012-2022 Long Term Plan – Land Transport (May 2016) be received.

JOHAN ROSSOUW MANAGER - LOCAL ROADS

May 2016

#### **Purpose of Report**

1.1 The purpose of this business paper is to inform Council of progress on major new and renewal projects as identified in Council's Activity Management Plans, or which have arisen during the course of normal maintenance and operation of the Roading infrastructure, the three Waters and some projects in the Community Services area.

#### Local Government Act S.11A Considerations

2.1 Waitomo District Council, in performing its role as a Local Authority, must have particular regard to the renewal of all it assets as determined through prudent asset management to consistently meet the needs of the community.

#### Commentary

# **Suggested Resolution**

The Progress Report: Major Capital Works be received.

flow,

CHRISTIAAN VAN ROOYEN MANAGER CAPITAL WORKS

| Document No: 395156         |               | <b>File No:</b> 037/048B                    |
|-----------------------------|---------------|---|
| <b>Report To:</b>           | Council       |   |
| 1                           | Meeting Date: | 31 May 2016                                 |
| Waltomo<br>District Council | Subject:      | Progress Report: Road Map Work<br>Programme |

#### Purpose

- 1.1 The purpose of this business paper is to present Council with the monthly update on progress against the Road Map Work Programme adopted by Council on 5 April 2016.
- 1.2 Attached to and forming part of this business paper is the Road Map Monitoring Schedule which reports progress against the Road Map as at 31 May 2016.

#### Background

- 2.1 This Road Map sets out the identified work programme leading up to adoption of the 2018-2028 LTP in June 2018. In addition to projects relating to the LTP, there are a number of other important projects that must also occur over this period and it is important that Council does not focus on the LTP process to the detriment of other important commitments.
- 2.2 It should also be noted that many of the projects of work contained in the Road Map are legislative requirements with statutory timelines which Council has no influence over. The majority of the non-LTP commitments are of importance to the functional roles of Council which feed into the decision making process.
- 2.3 The Road Map details identified projects of work, including a brief commentary for each project. Other issues will come up over time that will need to be tested against the Road Map work programme and organisational capacity to identify priority ranking against the established work programme.
- 2.4 The Road Map is a 'living document' subject to change, both through further planning required for certain work streams and also by way of Council review as other issues arise over time which affect priorities.

#### Commentary

- 3.1 The current edition of the Road Map was adopted by Council on 5 April 2016.
- 3.2 The full Road Map Work Programme document is presented to the Council on a "needs" basis to ensure that it is kept as up to date as possible.
- 3.3 In the interim period a Monthly Monitoring Schedule is presented to Council. The Monitoring Schedule is a direct extract from the Road Map of the Key Milestones.

3.4 The Monitoring Schedule for the Road Map adopted on 5 April 2016 includes the Key Milestones for all projects occurring in the current year (2015/2016) as well as those scheduled for the 2016/2017 year and includes the indicative timeframe and a commentary on progress for each project of work.

#### **3.5** Amendments to Timelines and Projects of Work

3.6 Any amendments to Project timelines are noted in the monthly Monitoring Schedule. Updates are highlighted in red font. All completed projects are moved to the end of the Schedule and are highlighted in blue font.

#### **New Projects**

4.1 As new projects are identified, they will be detailed in future versions of this business paper and will be included in the next edition of the full Road Map Work Programme document.

#### Suggested Resolution

The Progress Report: Road Map Work Programme as at 31 May 2016 be received.

MICHELLE HIGGIE EXECUTIVE ASSISTANT

Attachment: Road Map Monitoring Schedule as at 31 May 2016 (Doc 393280)

# District Plan – Review

| Key Milestone   | Indicative Timeframe | Commentary |
|---|----------------------|------------|
| Waitomo District Plan Gaps and Needs Assessment (GNA)                             | July/August 2015     | Completed  |
| Council Workshop<br>Feedback into the Gaps and Needs<br>Assessment                | 11 August 2015       | Completed  |
| Council Meeting<br>Discuss GNA outcome and agree<br>on Review Option and timeline | 29 September 2015    | Completed  |

| Key Milestone  | Indicative Timeframe | Commentary  |
|--|----------------------|---|
| Commence planning for full DP<br>Review including resourcing and<br>Professional Services Engagement | March 2016           | New milestones added based on<br>Council Resolution at 29 Sep 2015<br>meeting |
| Council Workshop<br>Discuss process and detailed<br>project plan and Commence<br>review              | 15 November 2016     | Further milestones will be added once the detailed planning is complete       |

#### **Urban Structure Plans**

It would be advisable to run this work stream in conjunction with the District Plan review. Further details on the need and scope of this work stream will be developed as part of the Scoping for the District Plan Review process.

#### **Review of Development/Financial Contributions**

It is suggested that a contributions regime (whether financial contributions or development contributions) be assessed and developed as part of the District Plan review work stream.

#### Enhanced Iwi Engagement

Key Milestones and a timeline will be considered as part of the 2017/18 year work plan.

#### **Section 17A Delivery of Services Reviews**

| Key Milestone  | Indicative Timeframe | Commentary   |
|--|----------------------|--|
| Outcome of regional discussions on<br>a collaborative approach to s17A<br>Reviews.   | 29 September 2015    | At the WMF meeting on 7<br>September 2015, it was agreed to<br>set up a regional collaborative<br>project to be led by Cindy Kent<br>from Waipa DC.                                  |
| <b>Council Meeting:</b> Update on<br>result of regional discussions and a<br>forward programme for s17A<br>reviews cognisant of regional<br>programme. | 24 November 2015     | A business paper was considered<br>by Council at the 24 November<br>2015 meeting.<br>The detail will be developed once<br>the outcomes of the Regional<br>Collaboration are clearer. |

#### **Risk Management: Oversight and Governance**

| Key Milestone   | Indicative Timeframe | Commentary  |
|---|----------------------|---|
| Review of risk identification management and mitigation options | •                    | Further Key Milestones and a timeline will be considered as part of the 2017/18 year work plan. |

#### **Communications Strategy Review**

| Key Milestone  | Indicative Timeframe | Commentary |
|--|----------------------|------------|
| Council Workshop - Key communication outcomes to be achieved | 10 November 2015     | Complete   |

| Key Milestone   | Indicative Timeframe | Commentary |
|---|----------------------|------------|
| <b>Council Meeting –</b> Adoption of Communications Strategy 2015             | 15 December 2015     | Complete   |
| <b>Council Meeting</b> - Six monthly<br>progress report to end of<br>December | 23 February 2016     | Complete   |
| <b>Council Meeting</b> - Six monthly progress report to end of June           | 2 August 2016        |            |
| <b>Council Meeting</b> - Six monthly<br>progress report to end of<br>December | 28 February 2017     |            |
| <b>Council Meeting</b> - Six monthly progress report to end of June           | 25 July 2017         |            |

# Information Services Strategic Plan: Review

| Key Milestone               | Indicative Timeframe | Commentary  |
|-----------------------------|----------------------|---|
| Review of IS Strategic Plan | January - March 2016 | This review will be aligned with Activity Plan development for LTP 2018-28. |

# Information Services Strategic Plan: Key Projects Implementation

| Key Milestone                   | Indicative Timeframe         | Commentary  |
|---------------------------------|------------------------------|---|
| <b>Objective Implementation</b> |                              |   |
| Objective Implementation Start  | August 2015                  | Complete  |
| Definition Stage                | August – September 2015      | Complete  |
| Analysis and Design Stage       | October – December 2015      | Complete  |
| Build Stage                     | December 2015 – January 2016 | Complete  |
| Implementation Stage            | February – May 2016          | UnderwayTraining for All Staff is<br>scheduled to take place over the<br>first week of June. The targeted<br>Go-Live date for the new system is<br>13th June 2016, subject to the<br>outcome of testing and training. |

| Key Milestone       | Indicative Timeframe | Commentary |

# **Community Development**

#### Introduction

Waitomo District Council recognises the importance of a proud and capable community, being involved in Community Development, and the significant contribution organisations like community groups, voluntary groups, Maori, commercial operators and business owners make to the well-being of the District. Groups such as these contribute in different ways, and they help to build a strong District identity. Through a partnership approach both Community and WDC can achieve more together than they can alone.

In addition to fostering community pride, there is also a need for WDC to create a framework for working with community organisations and local businesses to foster, and assist in, growing capacity and the economy for the District. Within Waitomo, this can be achieved through supporting economic development initiatives and by making strategic tourism decisions.

Community Development is a group of activities where WDC, in a number of diverse roles, is actively involved in 'helping the community to help itself'. Community Development activities represent a group of collaborative and partnership approaches and initiatives involving many agencies and organisations. These activities involve a common theme of promoting a better quality of life and a better living environment within the District.

Waitomo District Council's Community Development group involves Community Support, Customer Services, District and Regional Promotions and Economic Development. These activities form the foundation for engagement and the focus of work.

The Community Development Group comprises the following functions:

#### 1 Community Support

Community Support seeks to improve social outcomes within Waitomo District by working closely with the District community. The Community Support goals are:

- To create a better quality of life for our community
- To create a better living environment, helping local groups create local opportunities and solutions
- To encourage active engagement within the community as well as fostering international relationships.

#### 2 Tourism Development and District Promotion

Tourism is a partnership between central government, local government and the visitor industry. The key goals are to:

- Provide an excellent visitor experience to those travelling to our district
- Grow the economy through visitor spend
- Maintain a high quality environment
- Make smart strategic decisions to support Regional Tourism outcomes within our District

#### 3 District Development

District Development involves the facilitation and support of initiatives that will enhance the District's economic sustainability including

- Marketing Waitomo as a vibrant District where people want to live, work and play
- Identify opportunities for economic development initiatives within the District
- Facilitating projects that benefit the District
- Promotion of the District through Te Kuiti i-SITE Visitor Information Centre
- District Events

#### 4 Customer Service

Customer Services enables service delivery and support for residents across three Council sites:

- Council's Administration Building (Queen Street)
- Waitomo District Library (Taupiri Street)
- Te Kuiti i-SITE (Rora Street)

# **Regulation Services**

The Regulation group of activities together with Resource Management fall under the Regulatory Services business unit. The Regulation Group aims to ensure a healthy and safe environment for the community in terms of building and food safety, regulatory behaviours and creating a nuisance free, family and investment friendly environment.

This Group includes the regulatory functions devolved to Council by legislation and leads the making of the necessary policies and bylaws.

The functions are:

- Building Control
- Alcohol Licensing
- Environmental Health
- Bylaw Administration
- Animal and Dog Control

The Resource Management Activity involves the administration, application and enforcement of the Waitomo District Plan provisions including:

- Issuing of Resource Consents
- Monitoring consents for compliance with conditions
- Making amendments to the District Plan

This Group exists to promote sustainable development of natural and physical resources by establishing policies and plans which aim in part to make the district vibrant and prosperous.

The Resource Management Act 1991 (RMA) requires Council to implement and review objectives, policies and methods to achieve integrated management of the effects of the use, development or protection of land and associated natural and physical resources of the district.

#### **Policy: General**

- ① The **Dangerous and Insanitary Buildings Policy** sets out WDC's response to the policy requirements in relation to dangerous and insanitary buildings in terms of the Building Act 2004.
- ② The Policy on Gambling Venues outlines the controls in the District (e.g. location and number of machines) for Class 4 Gambling Venues and NZ Racing Board venues providing racing betting or sports betting services.
- The Dog Control Policy sets out dog access rules (prohibited areas, restricted areas and exercise areas) and encourages responsible dog ownership. The Policy is also supported by Dog Control Bylaw which allows for enforcement. The Bylaw was reviewed in conjunction with the Policy in December 2015.
- 4 The **Policy on Earthquake Prone Buildings** sets out the Council's policy for the management of earthquake prone buildings.
- S The Policy on Earthquake Prone Buildings will be affected by the pending changes to the Building Act resulting from the Canterbury Earthquakes Royal Commission and the Building (Earthquake-Prone Buildings) Amendment Bill. Until the outcome the Amendment Bill is known, no action will be taken to review the Policy.

- 6 The Local Alcohol Policy (LAP) balances the reasonable needs of the residents of Waitomo District regarding the sale, supply and consumption of alcohol, while addressing the statutory requirements of the Sale and Supply of Alcohol Act 2012, including the object of the Act to minimise the harm caused by excessive or inappropriate consumption of alcohol.
- Whilst the LAP was adopted by Council in February 2016, its "Operative" date is 1 June 2016 and the next review of the Policy must be within 6 years of the "Operative" date.
- The Psychoactive Substances Act 2013 makes provision, but is not mandatory, for Council to adopt a policy on psychoactive substances to enable the Council and its community to have influence over the location of retail premises selling such products. In March 2015, Council considered this matter and agreed to continue to monitor the requirement for a Psychoactive Substances Policy.

#### **Policy: Earthquake Prone Buildings Policy**

#### 1.0 DESCRIPTION

The Earthquake Prone Building Policy sets out the Council's policy for the management of earthquake prone buildings. This policy was last reviewed in 2011 and is due for review in 2016.

However, as this policy will be heavily influenced by (and is likely to be redundant as a result of) the Building (Earthquake-prone Buildings) Amendment Bill no further action is recommended at this time. The Bill has been reported to the Local Government and Environment Committee and they have issued an interim report and called for further submissions on the revised Bill. This submission period for the revised Bill closed on 16 July 2015.

#### Policy: Dog Control Policy and Practices Report 2015/2016

- ① Trade Waste Bylaw review initialised to address/facilitate renewal of Discharge Agreements with Meat Work Companies. (This Review is programmed elsewhere in this Road Map).
- Since adoption of the Dog Control Bylaw in June 2014, Council made changes to the way in which Animal Control Services are provided and as a result both the Dog Control Policy and Bylaw required updating. (That Review was programmed and completed in December 2015. As a result of that review, the 10 Year Cycle date has moved out to December 2025 accordingly.
- ③ In August 2015, the Department of Internal Affairs requested that all Councils review their Land Transport Bylaws following the Government's enactment of legislation to validate speed limits set by road controlling authorities with retrospective effect. (This Review is programmed elsewhere in this Road Map).
- ④ Council has confirmed its intent to obtain "Motorhome Friendly" status. For a town to obtain the Motorhome Friendly status the requirements of the New Zealand Motorhome Caravan Association include the requirement for a Freedom Camping Bylaw consistent with the premise of the Freedom Camping Act 2011.

| Preliminary site investigations and development of draft layout plan for discussion  |                                | Completed. A Concept Plan was<br>considered by Council at the 26<br>May 2015 meeting.  |
| Concept design forwarded to motor<br>Caravan Association for comment   | June 2015 – July 2015          | Completed  |
| Investigations into consenting<br>requirements, development of<br>initial staging and preparation of<br>draft costings                                 | September 2015 – November 2015 | Completed. Concept design forwarded to Quantity Surveyor to prepare preliminary costings.  |
| <b>Council Meeting</b><br>Reporting on the outcomes of the<br>above investigations and seeking<br>direction for further development<br>of the proposal | December 2015                  | Completed. Monetary allowance to<br>be included in the 2016/2017<br>budgets for undertaking of<br>feasibility study and business case. |
| Prepare an extension to existing Te<br>Kuiti Campground lease  | May 2016                       | Work in progress.  |
| Feasibility Study / Business Case development  | August – October 2016          |  |
| Council Meeting<br>Draft report to Council   | October – November 2016        |  |

# Parks & Reserves: Albion Soccer Club Upgrade

| Key Milestone   | Indicative Timeframe | Commentary |
|---|----------------------|------------|
| Assessment of exisiting building and base plans prepared                      | April 2015           | Completed  |
| Application for funding to Trust<br>Waikato                                   | September 2015       | Completed  |
| Trust Waikato Grant approval  | November 2015        | Completed  |
| Documentation for the sourcing of<br>quotations to undertake upgrade<br>works | June 2016            |            |
| Quotations for individual parcels of work                                     | July 2016            |            |
| Construction  | July – August 2016   |            |

### Public Amenities: Te Kuiti Security Camera Upgrade

| Key Milestone                             | Indicative Timeframe    | Commentary  |
|---|-------------------------|---|
| Assessment of scope and requirements      | May – June 2016         | This project has been deferred to the 2016/2017 financial year. |
| Development of implementation estimate    | June 2016               |   |
| Funding application to Lion<br>Foundation | June – July 2016        |   |
| Funding Approval                          | July – August 2016      |   |
| Finalisation of costs and implementation  | August – September 2016 |   |

### Public Amenities: Benneydale Public Toilet Replacement

| Key Milestone  | Indicative Timeframe          | Commentary  |
|--|-------------------------------|---|
| Confirm user numbers to identify requirements/size of toilet structure   | September 2015 – January 2016 | Completed. Counters have been<br>established on site periodically over<br>last three months |
| Site survey  | October 2015                  | Completed   |
| Investigate suitability of adapting<br>new Piopio toilet design for use in<br>Benneydale and confirm location<br>and other feasibility options | April 2016                    | Progressing   |
| <b>Council Meeting</b><br>Business Paper to Council with<br>options and budget estimates   | 27 April 2016                 | Completed - a business paper was<br>presented at the 27 April Council<br>meeting.           |
| NZTA Signoff of location   | May 2016                      |   |
| Finalise design and tender documentation   | May 2016                      | Design drawings in progress.  |
| Construction price negotiation / tender  | June 2016                     |   |
| Tender Subcommittee Report and awarding of tender  | July 2016                     |   |
| Construction   | July 2016 – September 2016    |   |

### Public Amenities: Benneydale Caravan Dump Station

| Key Milestone   | Indicative Timeframe       | Commentary  |
|---|----------------------------|---|
| Identification and agreement with<br>the Benneydale community group<br>and council as to most suitable<br>location for the dump station | November 2015              | This project has been deferred to the 2016/2017 financial year. |
| Prepare sketches and details of<br>construction and seek assistance<br>for funding from Motor Caravan<br>Association                    | December 2015 – March 2016 |   |
| Tender construction   | March 2016                 |   |
| Construction  | April 2016                 |   |

### **Recreation and Culture: Cultural and Arts Centre – Renewal** Works: Court Yard

| Key Milestone                                       | Indicative Timeframe  | Commentary  |
|---|-----------------------|---|
| Council Meeting<br>Progress Reports                 | Ongoing as required   |   |
| Development of a new concept plan for the Courtyard |                       | This project was rescheduled due to other work priorities.  |
| Council Meeting<br>Concept proposals                | June 2015 – July 2015 | Completed. Draft sketches were<br>prepared and presented to Council.<br>Council will be kept briefed by way<br>of Progress Reports. |
| Draft Detailed working drawings                     | August 2015           | Completed   |
| Completion of Tender Documents                      | April 2016            | Completed   |
| Tender for works                                    | May 2016              | Work is currently out for tender with the closing date being 9 June.  |
| Tenders Subcommittee and<br>awarding of contract    | June 2016             |   |
| Implementation / Construction                       | June – July 2016      |   |
| Planting upgrade by ISU                             | July – September 2016 |   |
| Fencing changes                                     | July – September 2016 |   |

## Public Amenities: Te Kuiti Rail Overbridge Renewals

### <u>Stage 1 – 2015/2016</u>

| Key Milestone   | Indicative Timeframe          | Commentary   |
|---|-------------------------------|--|
| Instructions for the investigation<br>into options for improvement to<br>the safety railing associated with<br>the overbridge given to consultant | August 2015                   | Completed  |
| Report from engineer into options and costing   | September 2015 – October 2015 | Awaiting finalised Engineering<br>options, costings and phasing of<br>works. |
| Development of construction drawing and tender documentation  | To be confirmed               |  |
| Tender for works  |                               |  |
| Construction  |                               |  |

#### Stage 2 - 2016/2017

| Key Milestone  | Indicative Timeframe | Commentary |
|--|----------------------|------------|
| Review of the initial report integrity<br>of the structure with a view to<br>prioritizing the works required | To be confirmed      |            |
| Report from engineer into options and costing  |                      |            |
| Development of construction<br>drawing and tender documentation<br>associated with prioritised work          |                      |            |
| Tender for works   |                      |            |
| Construction   |                      |            |

# Asset Management

### Land Transport: Roading Activity Influences

| Key Milestone  | Indicative Timeframe         | Commentary  |
|--|------------------------------|---|
| <b>Council Meetings</b> – progress on work streams   | Monthly Council Meetings     | Progress Reports provided to Council as required.   |
| Amend Road Maintenance Contract<br>Document  | June 2015                    | Complete – Contract Awarded   |
| Develop levels of service options<br>along with funding options<br>(depending on outcome of FAR<br>review) | February 2016-17             | To implement 2018. The impact of<br>the One Network Road<br>Classification (ONRC) and the<br>current changes to allow heavier<br>trucks on all bridges and roads are<br>to be assessed. |
| Develop LTP 2018-28  | October 2017 – February 2018 |   |

### Solid Waste: Cross Boundary Collaboration (WDC/RDC)

| Key Milestone   | Indicative Timeframe | Commentary  |
|---|----------------------|---|
| Future Cross Boundary<br>Collaboration between WDC and<br>RDC | 2015/2016            | A further approach will be made to<br>RDC to ascertain certainty around<br>the interest they may still have in<br>cross boundary collaboration<br>regarding solid waste matters for<br>LTP development purposes.<br>RDC appointed a Consultant to<br>investigate their options. There<br>have been meetings to provide<br>information of WDC's position.<br>No further feedback from RDC. |

### Solid Waste: Para Kore "Marae Working Toward Zero Waste"

Once key milestones are identified, an indicative timeline will be included in a future version of the full Road Map document.

### Solid Waste: District Transfer Station Improvements

It is intended that WDC's Transfer Stations will continue to operate within those standards for the period of the 2015–25 LTP with the exception of minor upgrades such as fence and signage renewals.

### Solid Waste: Waitomo District Landfill

| Key Milestone   | Indicative Timeframe | Commentary   |
|---|----------------------|--|
| Future Demand Study to increase<br>the consented capacity from<br>232,000m3 to 500,000m3. | December 2016        | Two options must be considered.<br>The first would be to extend the<br>volume of the landfill to<br>500,000m3 with no change to the<br>footprint, adding another 40 year |

<sup>&</sup>lt;u>Note</u>: The significant key projects for Water, Wastewater, Stormwater and Roading are capital works and therefore detailed reporting on these is undertaken by way of monthly progress reports to Council on each of the activities.

# 41

| Key Milestone | Indicative Timeframe | Commentary   |
|---------------|----------------------|--|
|               |                      | life expectancy and in doing so<br>retaining income.<br>The second option would be to<br>close the landfill when the<br>232,000m3 consent limit is<br>reached and cart waste to other<br>landfills.<br>The estimated time frame to reach<br>the 232,000m3 limit as per current<br>annual refuse volumes is estimated<br>at about 7 years. This option will<br>have financial impacts and<br>monopoly exposure. |

### Solid Waste: Waitomo Landfill Operations and Kerbside Collection Contract Renewal

#### Landfill Operations

| Key Milestone                            | Indicative Timeframe | Commentary   |
|--|----------------------|--|
| WDC Landfill operations contract renewal | 2016                 | The terms of the original contracts<br>are $3 + 2 + 2$ year terms, with the<br>1st right of renewal 1st November<br>2012 to 1st November 2014 and<br>the second 1st November 2014 to<br>1st November 2016. |

#### **Transfer Station – Refuse and Recycling Collection**

| Key Milestone   | Indicative Timeframe | Commentary   |
|---|----------------------|--|
| Transfer station refuse and<br>recycling collection contract<br>renewal | 2016                 | The terms of the original contracts<br>are $3 + 2 + 2$ year terms, with the<br>1st right of renewal 1st November<br>2012 to 1st November 2014 and<br>the second 1st November 2014 to<br>1st November 2016. |

#### **Refuse Collection and Disposal**

| Key Milestone  | Indicative Timeframe | Commentary   |
|--|----------------------|--|
| Refuse collection and disposal services contract renewal | 2016                 | The terms of the original contracts<br>are $3 + 2 + 2$ year terms, with the<br>1st right of renewal 1st November<br>2012 to 1st November 2014 and<br>the second 1st November 2014 to<br>1st November 2016. |

### Solid Waste: SWaMMP Improvement and Monitoring

| Key Milestone   | Indicative Timeframe                 | Commentary   |
|---|--------------------------------------|--|
| Undertake a Topographical Survey<br>of the Landfill every two years to<br>determine compaction and filling<br>rates | 2012 then every two years thereafter | A full Topographical Survey of the<br>Landfill was completed in late<br>2014. The next Survey is due late<br>2016. |
| Improve monitoring of Contractor<br>Performance   | Ongoing                              | Monitoring of Contractor<br>performance is ongoing.  |
| H&S audits on all Waste<br>Management Facilities to identify<br>hazards and safety improvements                     | Monthly                              | Ongoing.   |
| Explore interest in development of<br>the District Landfill as a sub-<br>regional or regional waste disposal        | Ongoing                              | Monitor  |

| Key Milestone  | Indicative Timeframe  | Commentary   |
|--|---|--|
| asset  |   |  |
| Estimate impact of expected<br>tourism numbers on capacity of<br>existing solid waste facilities and<br>services   | Ongoing   | An initial estimate was completed<br>and monitoring is ongoing.<br>Monitoring results to date show the<br>impact on general waste is<br>minimal. There has been an<br>increased recycling volume through<br>tourism areas since the installation<br>of recycling bins. |
| Review Solid Waste Management<br>activities required to support<br>development in growth areas<br>(Waitomo village, Mokau etc)<br>following completion of structure<br>plans | Ongoing   | The Mokau Transfer Station is<br>under-utilised, however dumping<br>of rubbish next to street bins in<br>Mokau is increasing. An<br>investigation into the possible<br>relocation of the Transfer Station<br>into Mokau township is underway.                          |
| Review progress with<br>implementation of Improvement<br>Plan  |   | Reviewed as part of the 2015-18<br>AMP.  |
| Undertake Waste Audit every two<br>years   | The first was done in June 2012 then every two years thereafter | An audit was completed in 2014.<br>The next Survey is due in 2016.   |
| Investigate ETS Liability (Start<br>June 2013)   | Ongoing   | Progressing.   |

## Stormwater: Health and Safety Issues

| Key Milestone                      | Indicative Timeframe | Commentary   |
|------------------------------------|----------------------|--|
| Council Meeting<br>Progress Report | Monthly              | Ongoing  |
| Storm water safety audit           | End June 2016        | Consultants are developing a risk<br>matrix to determine the most<br>urgent areas. A contractor has<br>been appointed to install manhole<br>safety grating along Esplanade<br>sewer and stormwater manholes. |

### Stormwater: King Street East

| Key Milestone                    | Indicative Timeframe | Commentary                               |
|----------------------------------|----------------------|--|
| Contract documents and tendering | January 2016         | Contractor appointed.                    |
| Construction                     | End April 2016       | The contractor has started this project. |

# Wastewater: Benneydale Sewerage

| Key Milestone        | Indicative Timeframe | Commentary                          |
|----------------------|----------------------|-------------------------------------|
| Reticulation renewal | August 2016          | The reticulation was re-            |
|                      | -                    | evaluated and areas of concern      |
|                      |                      | identified. The reticulation was    |
|                      |                      | flushed outThe re-evaluation has    |
|                      |                      | been completed and a sewer bridge   |
|                      |                      | and 3 local repairs are required.   |
|                      |                      | These will be during June 2016 and  |
|                      |                      | areas inspected by CCTV. Once the   |
|                      |                      | CCTV report is received the repairs |
|                      |                      | and replacement will happen.        |
|                      |                      | The re-evaluation has been          |
|                      |                      | completed and a sewer bridge and    |
|                      |                      | 3 local repairs are required. These |
|                      |                      | will be carried out in June 2016.   |

### Water: Te Kuiti Water Supply

| Key Milestone   | Indicative Timeframe            | Commentary  |
|-----------------|---------------------------------|---|
| Council Meeting | Quarterly                       | Council will be kept updated on progress through the presentation of quarterly progress reports.  |
| Phase 1         | Target completion December 2016 | Unforeseen replacement of the<br>reservoir roof and subsequent<br>delays pushed the project into<br>Christmas/New Year period.<br>Further operational issues pushed<br>the target completion date to<br>December 2016.<br>The first 2 filters were upgraded by<br>installing new pipe work. It was<br>then established that the supplied<br>pump does meet the required<br>water head to effectively backwash<br>the filters. An upgraded pump was<br>ordered. Until this pump arrives,<br>the pipe work contract is delayed.<br>The electrical work is progressing<br>well and parts of the new plant are<br>already working well. |
| Phase 2         | Target completion December 2017 | Final design is in progress. The<br>Water Take consent has been<br>obtained. Consent to construct an<br>Extraction Pump Station has been<br>obtained.   |
| Phase 3         |                                 | Preliminary design to start 2016  |

### Water: Awakino Pump Station

| Key Milestone                    | Indicative Timeframe | Commentary  |
|----------------------------------|----------------------|---|
| Contract documents and tendering | January 2016         | Still in progress as it is delayed due to the Te Kuiti WTP upgrade. |
| Construction                     | End April 2016       |   |

### Water: Backflow Preventers

| Key Milestone                                 |             | Indicative Timeframe       | Commentary  |
|---|-------------|----------------------------|---|
| Backflow preventer in throughout the District | nstallation | Ongoing throughout 2015-16 | Approximately <del>65</del> –90 have been replaced throughout the district since June 2015. |

## Water: Seismic Strengthening of Reservoirs

#### Piopio Reservoir

| Key Milestone                    | Indicative Timeframe | Commentary  |
|----------------------------------|----------------------|---|
| Contract documents and tendering | November 2015        |   |
| Construction                     | September 2018       | Soil testing and evaluation were<br>completed and the design is being<br>done. This work will be<br>programmed for the 2018/19<br>financial year. |

### Water: Mokau Dam Upgrades

| Key Milestone                    | Indicative Timeframe | Commentary                                  |
|----------------------------------|----------------------|---|
| Contract documents and tendering | January 2016         | Completed                                   |
| Construction                     | End March 2016       | Tenders awarded and contractor on site      |
| Completion                       | End June 2016        | On track for completion by end of June 2016 |

# Strategic: Te Waitere Water and Wastewater

| Key Milestone  | Indicative Timeframe           | Commentary   |
|--|--------------------------------|--|
| Permeability tests to assess<br>sustainability of existing land<br>discharge of waste water and<br>possible future development |                                | Completed - Additional land will<br>need to be acquired for wastewater<br>disposal. Future development will<br>be assessed as part of the District<br>Plan review. |
| Development of detailed scoping<br>and associated Project Plan   | Outside 2025                   | Dependent on outcome of 1 above.   |
| Consultation with landowners on<br>development plans and land<br>availability for discharge                                    | During the life of 2015-25 LTP | Dependent on outcome of 1 above and available resources.   |
| Consultation with all property<br>owners on separator/septic tank<br>maintenance service                                       | During the life of 2015-25 LTP | Dependent on available resources.  |
| Council Meeting<br>Progress Report   |                                | On completion of each action.  |

# Strategic: Waitomo Village Water and Wastewater

| Key | y Milestone  | Indicative Timeframe          | Commentary  |
|-----|--|-------------------------------|---|
| 1.  | Development of detailed<br>scoping and associated project<br>plan for inclusion in Road Map.       | Completed                     | WDC condition assessment and<br>valuation complete.<br>Preliminary design and cost<br>estimate complete.<br>Met with THL around existing<br>asset value and cost new systems.<br>Financial modelling completed.<br>Results sent to THL.   |
| 2.  | Define proposed planning map<br>and develop development<br>scenarios which will indicate<br>demand |                               | Structure Plan by Beca<br>Consultants considered in<br>identifying area to be serviced.   |
| 3.  | Investigate high technology solutions with cost and establish economic feasibility                 |                               | Estimated cost of refurbishment<br>of systems not much different from<br>replacement and have shorter<br>expected asset life than total<br>replacement.   |

### Capital Renewal Programme – Year 1 (2015/2016)

#### WATER - Te Kuiti

It was found that the several water pipes other than those planned were in need of replacement and/or upgrading. These include a new 100mm along Rora Street, ring main in Henderson and Earl as well as in Te Kumi Loop Road due to water quality issues.

| Street                         | LTP Budget = Opt Rep Value | Comment  |
|--------------------------------|----------------------------|--|
| 58 Awakino Road (Pump Station) | \$2,126.63                 | Done when Awakino pump station<br>is being rebuilt |
| Awakino                        | \$67,811.25                | With Awakino pump station                          |
| Henderson                      | \$9,041.50                 | June 2016  |
| Henderson                      | \$3,718.25                 | June 2016  |
| Henderson                      | \$4,308.09                 | June 2016  |

#### WATER - Mokau

Replacement work was ordered and it was found that a deficiency in the number of valves will cause major disruption across the reticulation. New valves were installed and local repairs were completed to facilitate the renewal programme that was not foreseen. Only Oha Street will be able to be completed.

The main arterial supply pipe is at a very deep level (+- 2 meters). The ideal level is between 800 mm and 1 m. The new internal mains will be laid at the correct depth and sealed until several have been replaced before connecting up to the upgraded main arterial that will then be laid at a shallower depth.

| Street        | LTP Budget = Opt Rep Value | Comment   |
|---------------|----------------------------|-----------|
| Oha Street    | \$8,816.80                 | June 2016 |
| Oha Street    | \$1,550.16                 | June 2016 |
| Tainui Street | \$1,416.41                 |           |
| Tainui Street | \$15,702.25                |           |
| Tainui Street | \$15,662.13                |           |

#### WATER - Piopio

The main linking Moa Street with Aria Road along Tui Street is now complete. The additional valve has been installed. Moa Street Renewal will be reduced in scope to the bridge area and across SH3.

| Street     | Replacement Cost | Comments  |
|------------|------------------|-----------|
| Moa Street | \$13,952.80      | June 2016 |
| Moa Street | \$642.00         |           |
| Moa Street | \$1,008.48       |           |
| Moa Street | \$22,737.50      |           |

#### **ROADING**

Hangatiki East Road will be deferred and addressed as part of the OMYA route. Totoro Rd Section A was completed in 2015 but Section B is deferred to the next year for consent and budgeting reasons.

| Road Name  | RP            | Length<br>(m) | Width<br>(m) | Area<br>(m²) | Estimated<br>Rate \$/m2 | Cost<br>Estimate |
|------------|---------------|---------------|--------------|--------------|-------------------------|------------------|
| Oparure Rd | 4,414 - 5,800 | 1,386         | 6.4          | 8,870        | \$45.83                 | \$406,507        |
| Oparure Rd | 6,900 - 8,100 | 1,200         | 8.0          | 9,600        | \$47.14                 | \$452,575        |

Note: The above list indicates priority projects from the Road Rehabilitation Shortlist and large Capital Expenditure projects but excludes Minor Improvements projects, Slip Repairs and other emergency works.

#### WASTEWATER - Te Kuiti

The Rora Street sewer replacement will be deferred due to the good condition that the pipes are still in. The funding will be utilised for the replacement of the pipe under the railway line between Rora Street and Ward Street crossing near The Warehouse. Consultants are preparing tender documents and applying for the KiwiRail grant of access. This may hold up the project, as KiwiRail do not work very quickly.

| Street      | LTP Budget = Replacement Cost | Comments |
|-------------|-------------------------------|----------|
| Rora Street | \$20,521.00                   |          |
| Rora Street | \$38,048.00                   |          |

| Promote understanding,<br>commitment and engagement of<br>the community in waste<br>minimisation (more intensive<br>recycling and home composting).<br><b>Priority 2</b> | Ongoing   | Engage the community with<br>current waste minimisation topics<br>through local advertising |  |  |
| Manage relevant data and information and provide feedback on performance. <b>Priority 2</b>  | July 2016   | Waste audit completed to be<br>presented to council in August<br>2016.                      |  |  |
| Initiate and foster waste<br>minimisation in community<br>targeting schools and rural<br>communities. <b>Priority 2</b>  | Will start again when Team Leader<br>Solid Waste has been appointed | Education will continue to schools and the rural communities.                               |  |  |
| Explore into WDC landfill becoming a clean fill site only. <b>Priority 2</b>   | December 2018   | Dependant on future Cross<br>Boundary Collaboration between<br>WDC and RDC.                 |  |  |
| Reduction in onsite disposal of agricultural products. <b>Priority 2</b>   | Ongoing   | Agricultural waste education and<br>collection will continue in<br>conjunction with WRC.    |  |  |
| Prepare and maintain an audit procedure. <b>Priority 3</b>   | Ongoing   | Audit procedure prepared and<br>reporting ongoing   |  |  |
| Prepare and maintain data base.<br><b>Priority 3</b>   | Ongoing   | Asset inventory.<br>Additional Resource Required:<br>Team Leader Solid Waste                |  |  |

# AMP Improvement and Monitoring: Wastewater

|   | Wastewater AMP            |  |  |  |  |
|---|---------------------------|--|--|--|--|
| Key Milestone   | Target Completion Date    | Comment  |  |  |  |
| Consultation (to ascertain the community's service needs and preferences and to ensure their views are considered when selecting the best level of service scenario). <b>Priority 3</b>   | Next review due June 2016 | LOS survey completed in August<br>2011 confirmed wastewater services<br>meet or exceed the majority of<br>user's expectations.<br>Additional Resource Required:<br>Survey Consultant |  |  |  |
| Ensure the right level of funding is<br>being allocated to maintain the asset<br>service potential. <b>Priority 2</b>   | Next review 2017/18       | Review frequency consistent with<br>annual and long term planning cycle  |  |  |  |
| Formalise asset data collection procedures. <b>Priority 1</b>   | On going                  | Monitor progress   |  |  |  |
| Investigate a design concept for a<br>wastewater scheme to service planned<br>development at Mokau – Awakino.<br><b>Priority 4</b>  | After 2025                | Require District Plan update<br>Outside planning period  |  |  |  |
| Investigate extension of the Te Waitere scheme to further development of the area. <b>Priority 4</b>  | After 2025                | Require District Plan update<br>Outside planning period  |  |  |  |
| Develop accurate and complete asset<br>inventory registers for each scheme.<br><b>Priority 2</b>  | On-going                  | Monitor progress   |  |  |  |
| Updating of asset inventory data and input to database. <b>Priority 1</b>   | On-going                  | Monitor progress   |  |  |  |
| Develop a greater focus on risk<br>identification and management,<br>obtaining more detailed information on<br>critical assets. <b>Priority 2</b>   | Following above actions   |  |  |  |  |
| Prioritise the works developed from risk assessment exercises. <b>Priority 2</b>  | Following above actions   |  |  |  |  |
| Develop strategies to meet the<br>community's desire for higher<br>environmental standards and<br>anticipated more stringent resource<br>consent requirements. <b>Priority 2</b>  | Following above actions   |  |  |  |  |
| Arrange a routine forum of adjacent<br>council's wastewater officers to discuss<br>trends, concerns, future developments<br>that may affect neighbouring<br>authorities, cost sharing of consultants<br>or specialist providers, spare survey or<br>design capacity in larger councils<br>shared by others. <b>Priority 4</b> | Ongoing                   | Informal networking already occurs<br>on a regular basis   |  |  |  |

# AMP Improvement and Monitoring: Water Supply

| Water AMP   |                             |   |  |  |
|---|-----------------------------|---|--|--|
| Key Milestone   | Indicative Timeline         | Commentary  |  |  |
| Consultation to ascertain the water<br>supply communities service needs<br>and preferences and to ensure their<br>views are considered when<br>selecting the best level of service<br>scenario. <b>Priority 2</b> | Next review due August 2016 | Requires incremental improvement<br>and updating of current knowledge<br>only.<br>Additional Resources Required:<br>Survey Consultant |  |  |
| Ensure the right level of funding is<br>being allocated to maintain the<br>asset service potential. <b>Priority 2</b>   | Ongoing                     | Monitor.  |  |  |

| Water AMP   |                                |   |  |
|---|--------------------------------|---|--|
| Key Milestone   | Indicative Timeline            | Commentary  |  |
| Implement predictive modelling<br>techniques that will allow<br>consideration of alternative long<br>term cost scenarios. <b>Priority 3</b>   | 2018                           | Requires evaluation of appropriate<br>AMS after inventory records<br>updated and complete. with<br>analysis of findings and<br>implementation over the next 3-5<br>years.<br>Additional Resources Required:<br>Consultant |  |
| Improve standard of maintenance<br>data integration with spatial data in<br>Bizze@sset. <b>Priority 1</b>   | Ongoing                        | Monitor   |  |
| Improve standard of contractor<br>collection and reporting of<br>maintenance data and integration<br>of information with spatial data in<br>Bizze@sset. <b>Priority 2</b>   | Ongoing                        | Monitor   |  |
| Initiate a long term zoned metering<br>and leak detection programme,<br>initially for Te Kuiti. <b>Priority 3</b>   |                                | Commenced in ad hoc way from<br>2008.<br>Monitor  |  |
| Initiate a scheme proposal for<br>Marokopa. <b>Priority 4</b>   | 2025-45                        | Outside 2015– 2025 planning<br>period.<br>District Plan & Structure Plan  |  |
| Upgrade supply main from Mokau to<br>Awakino. <b>Priority 2</b>   | 2025-45                        | Outside 2015– 2025 planning period.   |  |
| Develop accurate and complete<br>asset inventory registers for each<br>scheme. <b>Priority 3</b>  | Ongoing                        | Monitor   |  |
| Develop a greater focus on risk<br>identification and management for<br>critical assets. <b>Priority 3</b><br>Prioritise the works developed from<br>the risk assessment exercise.  | Ongoing                        | Monitor   |  |
| Priority 3<br>Construct additional treated<br>storage at Te Kuiti to meet 24  | 2025 - 2035                    | Outside 2015-25 planning period.  |  |
| hours demand. <b>Priority 3</b><br>Install SCADA and telemetry for<br>automated monitoring and control<br>of treatment and pumping/storage<br>at Te Kuiti supply for compliance<br>with MOH gradings and improved<br>risk management. <b>Priority 2</b> | December 2016                  | Phase 1 of WTP Upgrade  |  |
| Improve definition of standards for maintenance. <b>Priority 2</b>  | Ongoing                        | Monitor   |  |

### <u>2015/2016</u>

| Key Milestone  | Indicative Timeframe | Commentary  |
|--|----------------------|---|
| Council Meeting<br>Deputation: HWT – End of Year<br>Report | 28 October 2015      | Completed   |
| Council Meeting<br>Deputation: HWT – Six Monthly<br>Report | 5 April 2016         | Completed – HWT presented its 6<br>Monthly Report to Council at the 5<br>April Council meeting. |

### Purpose of Report

1.1 The purpose of this business paper is to enable the Council to consider whether or not the public should be excluded from the consideration of Council business.

### Commentary

2.1 Section 48 of the Local Government Official Information and Meetings Act 1987 gives Council the right by resolution to exclude the public from the whole or any part of the proceedings of any meeting only on one or more of the grounds contained within that Section.

### Suggested Resolutions

- 1 The public be excluded from the following part of the proceedings of this meeting.
- 2 Council agree the following staff, having relevant knowledge, remain in attendance to assist Council with its decision making: ...
- 3 The general subject of each matter to be considered while the public is excluded, the reason for passing this resolution in relation to each matter, and the specific grounds under Section 48(1) of the Local Government Official Information and Meetings Act 1987 for the passing of this resolution are as follows:

|    | General Subject of each<br>natter to be considered                           | Reason for passing this resolution in relation to each matter  | Section 48(1)<br>grounds for<br>this resolution |
|----|--|--|---|
| 1. | Audit Planning Report for<br>the Audit of Council's<br>2015/16 Annual Report | 7(2)(i) Enable any local authority holding the information to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations) | 48(1)(a)  |
| 2. | Progress Report: WMF<br>Work Streams – Waikato<br>Plan                       | 7(2)(i) Enable any local authority holding the information to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations) | 48(1)(a)  |
| 3. | Progress Report: Risk<br>Management (Health and<br>Safety)                   | 7(2)(i) Enable any local authority holding the information to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations) | 48(1)(a)  |
| 4. | Progress Report: 2<br>Jennings Street, Te Kuiti                              | 7(2)(i) Enable any local authority holding the information to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations) | 48(1)(a)  |

|    | General Subject of each<br>natter to be considered                                 | Reason for passing this resolution in relation to each matter  | Section 48(1)<br>grounds for<br>this resolution |
|----|--|--|---|
| 5. | Progress Report:<br>Regulatory Update  | 7(2)(i) Enable any local authority holding the information to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations) | 48(1)(a)  |
| 6. | Waitomo Rock -<br>Application for Extension<br>of Resource Consent<br>Lapse Time   | 7(2)(i) Enable any local authority holding the information to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations) | 48(1)(a)  |
| 7. | Progress Report:<br>Waitomo Village Water<br>and Wastewater Services<br>– May 2016 | 7(2)(i) Enable any local authority holding the information to carry on, without prejudice or disadvantage, negotiations (including commercial and industrial negotiations) | 48(1)(a)  |

This resolution is made in reliance on Section 48(1)(a) of the Local Government Official Information and Meetings Act 1987 and the particular interest or interests protected by Section 6 or Section 7 of that Act or Section 6, Section 7 or Section 9 of the Official Information Act 1982 as the case may require are listed above.
